Cancer Remission

Individual results may vary. Always consult a physician before starting any treatment. Dr. Dalal Alkoury, MD is a certified and licensed physician.

Why So Many AWAREmed Patients Experience Either Cancer Remission or Improved Quality and Extension of Life:

A WHOLE-istic Approach - We offer the most effective advanced and modern traditional, integrative, alternative, complementary, herbal, nutritional, stem cell, hormone, holistic and diagnostic medical methods and technologies.

Cost Effective - Our treatments are so fast and effective that the total treatment cost is a typically a fraction of the typical "slow bleed" approach used by most other clinics and hospitals. Our experts even help guide you on raising any needed funds and insurance reimbursements.

A Warm, Healing Environment - Our staff blankets our beloved patients with care and compassion, provided in a calm and soothing "5 star spa"-like atmosphere free of beeps, shouting and noises common from other providers.

Exceptional RESULTS - Virtually everyone, at any stage of illness or condition improves moderately to significantly after visiting our clinic. This includes remission of illnesses considered by most to be "incurable" such as Parkinson's, Alzheimer's and terminal cancers.

This is why many so doctors send their patients to AWAREmed, when everything else has failed to help.

Individual results may vary. Always consult a physician before starting any treatment. Dr. Dalal Alkoury, MD is a certified and licensed physician.
