Refreshes shoes in under an hour

Keep your shoes odor-free and bacteria-free without the spray can

There's a better way to kill the germs and fungus that cause foot odor and Athlete's Foot. It's the ultraviolet shUVee™ Shoe Deodorizer. The UV light given off by the shUVee™ kills over 95% of germs, bacteria, even the fungus responsible for the highly contagious MRSA bacteria – in less than one hour. It's chemical-free and unlike sprays, the UV light reaches all the way into shoes down to the toes where bacteria live. In fact, it's the same UV technology employed by most hospitals. Fits all styles and sizes of shoes. 14¾"H x 8¾"W x 13¾"D.

Description

Keep your shoes odor-free and bacteria-free without the spray can.
Stop smelly shoes.

There's a better way to kill the germs and fungus that cause foot odor and Athlete's Foot.

It's the ultraviolet shUVee Shoe Deodorizer. The UV light given off by the shUVee kills over 95% of germs, bacteria, even the fungus responsible for the highly contagious MRSA bacteria -- in less than one hour.

It's chemical-free and unlike sprays, the UV light reaches all the way into shoes down to the toes where bacteria live. In fact, it's the same UV technology employed by most hospitals. With the shUVee Deluxe version, you'll get the original shUVee and all of it's germ killing power, plus two conveniently sized Travel shUVee Deodorizers that fit easily into your carry on luggage so you can have the cleansing power of UV light wherever your shoes may take you.

Travelers will appreciate the lightweight portable power of the shUVee Travel Deodorizer to zap germs and bacteria. After a long day of travel and airport security checks you can refresh your shoes in your hotel room with the cleansing power of UV light. You'll get two travel units that fit inside your shoes killing germs and bacteria at the source. Lightweight and battery operated you can take the shUVee Travel Deodorizers wherever your shoes may take you. Kill odor at the source and at your final destination.

Fits all styles and sizes of shoes.

shUVee Shoe Deodorizer: 14-3/4"H x 8-3/4"W x 13-3/4"D
Each Travel shUVee measures: 6"L x 1-1/2"W x 1"D

shUVee Deluxe with 2-Piece Travel Unit

The shUVee® Ultraviolet Shoe Deodorizer

Ultraviolet light technology has been utilized to fight germs in hospitals, nursing homes, and other sensitive environments for years. This technology is now available for home use.

The shUVee® Ultraviolet Shoe Deodorizer… Stops Odor, Kills Germs, Works in One Hour!

"I just wanted to say that I love the shuvee and it works great. I use this thing every day because being a Navy Pilot, I use my flight boots for hours and they get really smelly. I can really use the help!"

– James, U.S. Navy

The shUVee® Ultraviolet Shoe Deodorizer – take the first step!

The shUVee® Ultraviolet Shoe Deodorizer uses the power of UV light to clean the surface areas inside your shoes. No chemicals or other biological agents are used in this process.

The power of UV light, along with a short period of time, is all that is needed to clean the inside of your shoes. Normally, this dark and often damp area serves as a breeding ground for bacteria and fungus that can attack the feet and cause foul odor. Now with the shUVee® Ultraviolet Shoe Deodorizer your feet can begin their day inside shoes that smell like new.

Keep that new shoe smell with the shUVee® Ultraviolet Shoe Deodorizer.

The patented shUVee® Ultraviolet Shoe Deodorizer really *works!* Perfect for athletic shoes, teenagers sneakers, work shoes, dress pumps, sandals and children's shoes.

Don't take our word for it, discover for yourself how the amazing shUVee® Ultraviolet Shoe Deodorizer works to deodorize and clean your shoes from the inside.

Learn more about How it Works!

Exhibit D

Proven to Kill Germs

Proven to kill germs in independent lab tests.

The shUVee® Ultraviolet Shoe Deodorizer is the solution for killing common foot dwelling germs that cause foot odor.

Shoe odor begins with excess moisture. On average, the human foot perspires up to a pint of moisture each day. The nearly three trillion bacteria found in a typical shoe feast off of that moisture. We smell the result of this daily meal when we remove our shoes. Harsh chemical powders and sprays only cover up odor.
The shUVee® Ultraviolet Shoe Deodorizer is designed to remove odor-causing germs. Give your nose and shoes the break they deserve. Try The shUVee® Ultraviolet Shoe Deodorizer today!

Scientifically engineered

The shUVee® Ultraviolet Shoe Deodorizer is also designed to take aim at common foot pathogens like Athlete's Foot fungus and bacteria responsible for embarrassing shoe odor. Athlete's Foot (tinea pedis) originates as a fungus from the germ family Trichophyton. The fungi attacks the skin causing it to dry out, itch and crack.

Lab tests show The shUVee® Ultraviolet Shoe Deodorizer kills over 99% of common foot dwelling pathogens when used for at least two consecutive hours.

How it Works

The shUVee® Ultraviolet Shoe Deodorizer is designed to work on most types of shoes by utilizing the natural cleansing power of UV light. Hospitals have been using similar UV light to eliminate viruses and other harmful organic agents for almost half a century. Similar technology is now available for home use. The shUVee® Ultraviolet Shoe Deodorizer is chemical free and will not harm shoes.

Eliminate shoe odor; give your feet the clean environment they deserve!

The shUVee® Ultraviolet Shoe Deodorizer

Deodorize

UV light is designed to kill odor-causing germs in your shoes. Your nose will agree.

Refresh

Designed to keep your shoes smelling fresh. Even shoes can use a mini-vacation! Daily use as directed is recommended for best results.

Easy

Place your shoes on the wands, press one button and allow the advanced UV light to do its job. **That's it.**

Green

No corrosive chemicals are used – just the power of UV light, similar to the UV light produced naturally by the Sun. Step into the light, pun intended.

Affordable

Just one purchase of The shUVee® Ultraviolet Shoe Deodorizer works for the whole family. Of course, *you* know who needs it.

Product Description

Kills germs that cause foot odor and athlete's feet! Shoes can be very expensive and insoles simply don't do anything to kill the germs and bacteria that cause foot odor and Athlete's Foot. Now you can refresh your shoes in less than one hour with the shUVee Ultraviolet Shoe Deodorizer. The shUVee safely and effectively cleans the inside of shoes using UV light. The process is chemical free and will not harm your shoes or insoles. Simply place your shoes on top of the unit and the weight of the shoe activates the UV light. Within one hour, your shoes will smell fresher. Leave on overnight and begin your day with the environment your feet deserve! The product is designed to engage upon contact with the weight of the shoes. The expandable bars accommodate all sizes of shoes. One unit fits every shoe in the family, from kids' shoes to work boots. Don't live with foot odor and smelly shoes anymore! The shUVee will take your worst smelling shoes and make them smell like new again.
Instructions:
Your shUVee comes with a new safety feature that revises some of the Instructions contained in the Instruction booklet and DVD
To use this shUVee:
• Plug one end of the adapter into shUVee base and the Other end into your AC wall outlet. The red STAND8Y light on the shUVee base will illuminate.
• Place your shoes on 1h. shUVee wands. Be certain to set them well so they depress the black button at the, top of each shUVee wand
• Place the shUVee shoe bags over your Shoes, This is mandatory for any open toed shoe designs
