General Motors LLC,)	
 a limited liability company)	

COMPLAINT

The Federal Trade Commission, having reason to believe that General Motors Company (“Respondent” or “GM”) has violated provisions of the Federal Trade Commission Act (“FTC Act”), and it appearing to the Commission that this proceeding is in the public interest, alleges:

1. Respondent is a Delaware limited liability company with its principal office or place of business at 300 Renaissance Center, Detroit, MI 48265. Respondent has marketed and advertised for sale used GM motor vehicles.
2. The acts or practices of Respondent alleged in this complaint have been in or affecting commerce, as “commerce” is defined in Section 4 of the FTC Act, 15 U.S.C. § 44.
3. Since at least November 2014, Respondent has disseminated or has caused to be disseminated advertisements promoting the sale of “Certified Pre-Owned Vehicles.” Respondent establishes criteria for certifying pre-owned vehicles, which are then inspected and sold by Respondent’s local dealerships. Respondent provides consumers a 12-month/12,000-mile “bumper to bumper” warranty for each Certified Pre-Owned Vehicle.
4. Respondent’s advertisements for Certified Pre-Owned Vehicles include, but are not necessarily limited to, advertisements and marketing materials posted on the website www.gmcertified.com, excerpts of which are attached as Exhibits A through F. On this website, Respondent advertises Certified Pre-Owned Vehicles that are available at its affiliated local dealerships by, among other things, allowing consumers to search for individual cars and providing descriptions of these cars.
5. Respondent’s advertisements on its website have included the following claims regarding its Certified Pre-Owned Vehicles:

**“We check it, so you don't have to.
172-Point Inspection and Reconditioning**

Our detailed, 172-Point Vehicle Inspection and Reconditioning Process is one of the most comprehensive in the industry. Before any Chevy, Buick, or GMC used vehicle earns the title of Certified Pre-Owned, it must first meet all of our rigorous standards.

Our 172-Point Vehicle Inspection and Reconditioning Process is conducted only by highly trained technicians and adheres to strict, factory-set standards to ensure that every vehicle’s engine, chassis, and body are in excellent condition. The technicians ensure that everything from the drivetrain to the windshield wipers is in good working order, or they recondition it to our exacting standards. The vehicles are road-tested, put up on a lift for a complete underbody and frame inspection, and then completely checked for any cosmetic flaws.

And we do check it all. From the engine block to the shocks, right down to the floor mats, no major system is overlooked. If it fails a single point, we completely recondition it – or it won’t be Certified.”

Exhibit A.

6. Respondent also provides on its website a checklist of all items that its local dealers review as part of Respondent’s 172-point inspection. This checklist includes “open recalls”:

REVIEW THE VEHICLE’S HISTORY:	PASS	FAIL
...		
Open Recalls	<input type="checkbox"/>	<input type="checkbox"/>

Exhibit B.

7. Even though it has made the claims set forth in Paragraphs 5 and 6, until at least June 2015, Respondent has advertised on its website numerous Certified Pre-Owned vehicles available at its local dealerships with open recalls for safety issues.
8. In some instances, these open safety recalls have included recalls for defects that can cause serious injury. For example, Respondent has advertised Certified Pre-Owned vehicles that have an open safety recall for a key ignition switch defect, which can affect engine power, power steering, braking, and airbag deployment, thereby increasing the risk of a crash and occupant injury. Respondent also has advertised Certified Pre-Owned vehicles that have an open safety recall for a defect associated with the body control module connection system, which can result in a variety of issues with the brakes that may increase the risk of a crash. Respondent also has advertised Certified Pre-Owned

vehicles that have an open safety recall for a defect associated with the chassis electronic module, which can cause engine stalls, thereby increasing the risk of a crash.

9. In numerous instances, until at least June 2015, when Respondent has advertised Certified Pre-Owned vehicles that are subject to open recalls for safety issues making the claims set forth in Paragraph 5 and 6, it has provided no accompanying clear and conspicuous disclosure of this fact.
10. When consumers search for particular categories of vehicles on Respondent’s website, there is no disclosure of open safety recalls. An example of such search results includes the following:

Exhibit E.

13. In some listings for Certified Pre-Owned vehicles, such as the example shown in Paragraph 12, there is a line that reads “CARFAX Vehicle History Report.” Underneath that line, Respondent provides a “preview” of the vehicle history report. If a consumer were to locate this information, understand that one could click on the line reading “Get a Free CARFAX Vehicle History Report” to access additional information, and click on the line, a vehicle history report potentially containing information about an open safety recall would appear.
14. In many instances in which a Certified Pre-Owned vehicle is subject to an open safety recall, such as the example shown in Paragraph 12, GM’s preview of the vehicle history report has excluded that information.
15. In contrast, in many instances in which a Certified Pre-Owned vehicle has no open safety recall, GM’s preview of the vehicle history report includes that information. An example of such a listing includes the following:

Exhibit F.

VIOLATION OF THE FEDERAL TRADE COMMISSION ACT

Count I

16. In connection with the marketing or advertising of used GM motor vehicles, Respondent has represented, directly or indirectly, expressly or by implication, that used motor vehicles it advertises have been subject to rigorous inspection, including for safety issues.
17. In numerous instances in connection with the representation set forth in Paragraph 16, Respondent has failed to disclose, or disclose adequately, that used vehicles it advertises are subject to open recalls for safety issues.
18. Respondents' failure to disclose, or disclose adequately, the material information set forth in Paragraph 17 above, in light of the representation described in Paragraph 16, above, constitutes a deceptive act or practice in or affecting commerce in violation of Section 5(a) of the FTC Act, 15 U.S.C. § 45(a).

THEREFORE, the Federal Trade Commission, this ____ day of _____, _____, has issued this complaint against respondent.

By the Commission.

Donald S. Clark
Secretary
