Costly Joint-Pain Injections Replaced By New \$2 Pill

New pill boosts the same lubricating joint fluid as expensive and painful injections - without using a needle. Users report dramatic relief from swelling, pain and stiffness without side effects and expense.

By Jack Isler, M.D.
Health News Syndicate
HNS—A popular needle injection for people with joint pain is now available in an inexpensive nonprescription pill. The breakthrough came when researchers discovered a way to deliver the injected "relief molecule" through the digestive system.

NO MORE NEEDLES: A popular needle injection pain-killer for joint pain is being replaced. The key molecule in these injections can now be delivered by taking a new low-cost pill called Synovia.

Top US clinics have used these needle injections for years because they deliver powerful relief. Unfortunately, the shots are painful and expensive. They also only work on the joint being treated.

The new pill, called Synovia, delivers the same "relief molecule" as the injections. However, it has some impressive advantages. First, it's inexpensive and nonprescription. Also, relief is delivered to every joint in the body because it enters the bloodstream through the digestive system.

This gives it the ability to reduce a much wider variety of pain. Users report greater flexibility and less stiffness in their knees. Hands and shoulders move pain-free for the first time in years. Even neck and lower back pain improve dramatically.

All this without spending over \$600 on needle injections and taking trips to the doctor every week.

The medical community is very excited about this new breakthrough. Dr. Jacob Moss says, "Synovia is a great option for those suffering from joint pain. Injections are usually a last resort because of the pain and expense. However, Synovia should be taken at the first sign of discomfort."

New Discovery

The needle injection procedure has been given to hundreds of thousands of patients over the last several years.

Doctors use the shots to boost a critical element of the joint called synovial fluid. This lubricating fluid is found between the cartilage and bones of every joint.

According to the firm's head of R&D, Mike McNeill, "Researchers have been working for years to find a way to boost this fluid noninvasively. The problem was the molecule used in the injections was too large to absorb into the bloodstream."

Top scientists conquered this obstacle by finding a smaller form of the same molecule. This new glucose form is easily absorbed by your stomach and intestines!

Now those who suffer from joint pain can get relief without painful injections. At less than \$2 per day, early users like Steve Young are impressed. He says, "I've tried more pills than I can count, without any luck. Synovia is different. My knees and hands haven't felt this good in years!"

Impressive Clinical Results

Leading clinics use injection therapy because it works. Recent clinical trials

show the pill form also delivers major relief.

One example is a landmark study out of Europe. In the study the active ingredient in Synovia was compared to a popular NSAID pain reliever. The goal was to see if it could reduce pain and swelling around the knee. The results were incredible!

After just 30 days, more than 8 out of 10 people who took Synovia's active ingredient had NO swelling. However, only 2 out of 10 people who took the NSAID experienced reduced swelling.

The study also looked at cases of severe swelling. Amazingly, zero cases of severe swelling were detected in the group taking the active ingredient found in Synovia. This means it was 100% effective for the cases of severe swelling!

In contrast, 9 out of 10 people taking the NSAID still had severe swelling. McNeill points out, "The impressive thing about this study is the active ingredient wasn't tested against a fake pill. It was up against one of the most popular NSAIDs people use every day. It's easy to see why people in pain are excited to get relief without an injection."

The New Way It Delivers Relief

Getting relief without injections has big advantages. The most obvious is avoiding being stuck by a large needle every week for 5 weeks.

Another downside of injections is the doctor can "miss". The needle needs to be inserted into a precise spot in the joint to work. Otherwise, you risk the treatment being ineffective.

However, boosting your lubricating joint fluid by taking a pill delivers relief to all your joints, not just one.

There's an additional reason the active ingredient in Synovia works so well—it nourishes the cartilage.

McNeill says, "This is vital because cartilage does not have blood vessels. The fluid in the joint serves two very important pain-relief roles: lubrication and giving the cartilage the nutrients it needs to start re-growing."

Approved By Leading Doctors

The new delivery system for this molecule has caught the attention of leading medical doctors.

"Needle injections for joint pain have been

around for years because they work. Being able to get the same relief molecule through a pill is amazing. Injections may be a last resort, but I'd recommend Synovia at the first sign of pain," said Dr. Marie Laguna.

Dr. Gerardo Pereira, a renowned surgeon from Florida says, "Injections aim to boost synovial fluid, which lubricates the joint. Those suffering from joint pain usually have very little of this fluid. Synovia helps relieve pain by boosting this key lubricant without needles."

Dr. Moss adds, "The research behind the active ingredient in Synovia is very exciting. This product is a great choice for those who haven't had success with other joint pain treatments."

110% Money Back Guarantee

Amazing feedback from users of Synovia has generated a wave of confidence at the company. So much so that they now offer Synovia with a 110% money back guarantee.

The company's president, Michael Kenneth says, "We've seen how well it works. Now we want to remove any risk for those who might think Synovia sounds too good to be true."

Simply take the pill exactly as directed. You must enjoy fast acting relief. Otherwise, return the product as directed and you'll receive 100% of your money back plus an extra 10%.

How To Get Synovia

Today marks the official release of Synovia in [STATE]. As such, the company is offering a special discounted supply to everyone who calls within the next 48 hours.

A Regional Order Hotline has been set up for local readers to call. This is the only way to try Synovia with their "110% money back" guarantee.

Starting at 6:00 am today the order hotline will be open for 48 hours. All you have to do is call TOLL FREE 1-800-555-1234 and provide the operator with the special discount approval code: SYN18. The company will do the rest.

Current supplies of Synovia are limited, and callers that don't get through to the order hotline within the next 48 hours may have to pay more and wait until more inventory is produced. This could take as long as 6 weeks.

BEFORE: No lubricating fluid or cartilage leads to painful bone-on-bone rubbing. **AFTER:** Synovia's active ingredients lubricate joints and nourish cartilage so it can re-grow!

THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE. ALL DOCTORS MUST KNOW AND APPROVE FOR THEIR USE. ALL CLINICAL STUDIES WERE INDEPENDENTLY CONDUCTED AND WERE NOT SPONSORED BY MAKERS OF SYNOVIA.

New \$1.33 Pill Replaces \$1,000 Joint Pain Injections?

New pill naturally delivers “relief molecules” and boosts the same lubricating joint fluid as injections...without needles!

“I cried just to walk because my knees hurt so bad. I called the doctor and asked how much shots

cost, and he said \$1,000. We lost our insurance so I tried your product. Thank you for blessing me with less pain...this is an answer to prayer.”

—Chris H., Pennsylvania

INSIDE: A remarkable discovery in natural medicine clinically proven to vanquish your pain by 95% without needles, drugs, surgery or side effects.

“Being able to get pain relief without needles, surgery or medications is remarkable.

I'd recommend this pill at the first sign of pain.”

—Jack Isler, M.D., pioneer in natural medicine and author of *21 Broken Bones: A Guide to Understanding and Controlling Your Pain*

that de-activate your pain in a completely different way.

Most pain relievers give you temporary relief...simply mask pain...or trick your brain into thinking you have less pain. But they don't get to the root cause of your pain. And they can be costly...painful (think needles)...or have dangerous side effects that can rip up your stomach or wreck your joints.

That's not acceptable for my patients, my family or me.

So we've turned to Molecular Pain Relievers that work at the molecular level, deep within your joint cartilage and tissues.

As you'll see, MPRs restore your body's natural joint lubricating fluids and cartilage and relieve pain in a way that's far superior to anything I've found in natural or conventional medicine.

And which MPR is delivering the best relief?

It's the FIRST of this new class of painkillers... a pill called *Synovia* that's been a "life-restorer" for people all across America

Just imagine getting relief like this...

✓ **No more hip pain!** At age 79, Gerald P. of Utah began to have pain in both of his hips 24 hours a day. After taking *Synovia* for one week, he felt an almost 50% reduction in pain. After one bottle, his pain was gone!

✓ **No more injections!** George S. of Pennsylvania needed to see his doctor for knee injections. Now he

gratefully writes, "I have noticed an improvement in my knee joints after using *Synovia* for only one month. My right knee is feeling much better without needing shots."

✓ **No more knee or finger pain!** Betty I. of South Carolina had a swollen, cranky knee and fingers that crossed. After taking *Synovia*, she gratefully reports, "I can walk better, and my fingers feel so much better I'm playing the piano again."

How are results like these possible when other pain relief solutions have failed?

It's because *Synovia* attacks pain in a new and different way—to give you the kind of relief most people only dream of.

As you'll see, its exclusive, superior ingredients include...

>> **A unique, patented, broad-spectrum Kollagen—the only collagen clinically proven to reduce your pain by 95%,** page 4

>> **A special natural lubricant that delivers "relief molecules" deep within your joints, yet without needles or injections,** page 8

>> **And a marine marvel proven to be 800 times more potent than CoQ10 at quelling pain causing free radicals,** page 14

...all yours in a one-a-day *Synovia* pill and now available to you without a prescription.

What kind of pain relief miracle can *Synovia* do for you? Just turn the page...

Individual results may vary. ^^The use of the National Institutes of Health and WebMD logos is not an endorsement of this product.

A broad spectrum, patent collagen clinically prove

Restores and rebuilds your joints at

If you want flexible, pain-free knees, hips, shoulders, back and joints, you must have healthy levels of *collagen*.

Collagen is the key molecule found throughout your body—the “glue” that holds your joints together.

Collagen makes up 95% of your joint cartilage and forms a mesh to give your joints support and flexibility. The *more* collagen in your joints, the *less* likely you’ll suffer serious joint pain.

as you age, collagen decreases dramatically—by as much as 80% between ages 20 and 80.

When collagen decreases, your joints become weaker and less elastic...your joint cartilage deteriorates...you may suffer bone-on-bone pain...your bones

The problem is,

Microscopic images prove it.

See how your collagen

Young Collagen

Old Collagen

Why does pain seem to get worse with age?

One reason is the levels of collagen in your joints degrade—collagen you need to keep your cartilage healthy and your joints pain free.

Look at these images—and see how collagen thins and vanishes with age.

Great news! Boost your body’s natural levels of full spectrum collagen and banish pain by 95% with Balanced Kollagen found in *Synovia*.

ted *Kollagen*: The only n to reduce pain by 95%.

the molecular level to wipe out pain.

lose density...and
your skin sags.

This is why
many supplement
companies use
collagen in their pain-
relief formulas.

But the truth is, many types of
collagen I've seen used to relieve
pain are incomplete (missing
key forms of collagen) or cheaply
processed, using caustic chemicals
that destroy the collagen and
make it virtually useless to rebuild
your cartilage and ease your pain.

But these are not
shortcomings with *Synovia*,

■ **"Collagen is a durable,
glue-like substance that makes
up one-third of body protein"**

—National Institutes of Health

because it includes...

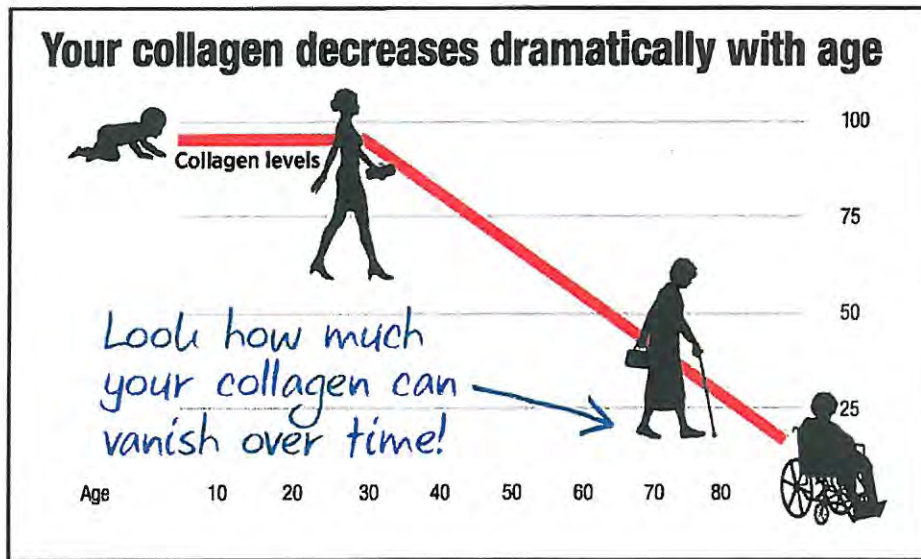

**...patented Balanced
Kollagen that makes your
joints virtually pain free**

The first ingredient that makes
Synovia so effective at ending
your pain is...

...Balanced Kollagen, a

that's the most powerful collagen I've ever found.

What makes Balanced Collagen superior to typical collagen? Three things...

1) More pain relief than any other collagen — 95% less pain, clinically proven

I've known about collagen for decades, but I've never seen a collagen deliver pain relief like Balanced Collagen.

In a landmark clinical study, people suffering from joint pain and cartilage injuries took 750 mg of Balanced Collagen every day for 120 days.

The results? Stunning!

- >> After just 7 days, their joint flexibility increased nearly 30%!
- >> After 30 days, 85% of their pain was gone!

>> After 120 days, a full 95% of their pain had vanished!⁽¹⁾

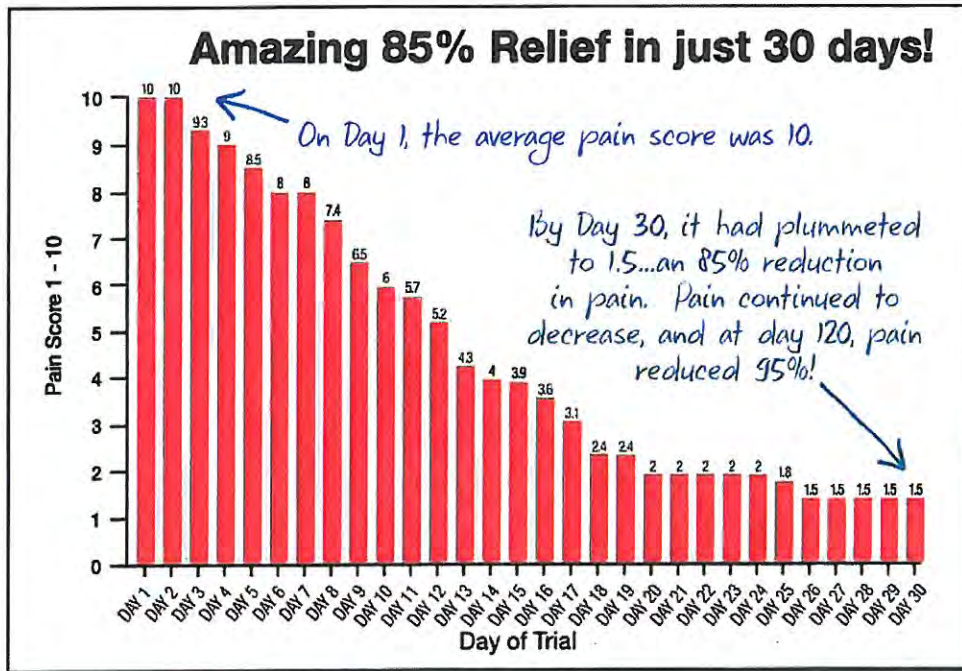

Great news! Each pill of Synovia includes **750 mg of Balanced Collagen**—the exact same dosage used in this study!

2) The most complete, full spectrum pain-relieving collagens

Sadly, many typical collagens are incomplete, but Balanced Collagen is "full spectrum," giving you the complete array of pain relieving collagens from Eggshell Membrane and Avian sources including...

- ✓ **Collagen I:** A form of collagen found in your connective tissue. Supports your bone matrix, and improves circulation and elasticity.
- ✓ **Collagen II:** The major collagen in your joints. Banishes pain...builds new

(1) Morton, S., et al. The Morte Scientific Group, Ontario Canada, August 30, 2013

cartilage...keeps your joints lubricated and cushioned... and prevents joint damage.

Collagen II includes glucosamine, chondroitin and hyaluronic acid for healthy, pain-free joints.

- ✓ **Collagen III:** A form of collagen found in connective tissue. Supports your bone matrix, and improves circulation and elasticity.
- ✓ **Collagen V:** A rare collagen needed for re-building and restoring your weakened or damaged joint cartilage.
- ✓ **Collagen X:** A rare collagen
(Continued on next page...)

Balanced Kollagen speeds relief to your joints

Typical Collagen

▲ Most collagens uncoil and lose their structure, actually *causing* more pain.

Balanced Kollagen

▲ Its unique processing retains its 3D shape delivering its full painkilling power.

■ **“Collagen augmentation improves the quality of cartilage repair after microfracture... and was superior to that after microfracture alone.”**

—American Journal of Sports Medicine

Lawrence no longer needs his electric cart

For 76-year-old Lawrence M. of Ohio, going grocery shopping required quite an effort. Knee and leg troubles meant he had problems walking, so he needed an electric cart to get around. Not anymore!

He writes, “I started taking *Synovia* for about two weeks, and I’ve noticed my legs and knees are not as stiff. I’ve always used an electric cart at the grocery store, but today I was able to walk without the cart. Thank you.” Individual results may vary.

For fastest ordering, call TOLL FREE 1-888-973-8076

7

that plays a vital role in bone mineralization—the first step in rebuilding your damaged cartilage. It also “preps” your joints to receive all the other pain-relieving power of the other collagens. Without it, all other collagen falls short.

3) A unique molecular processing that harnesses the full, pain relieving power of collagens

Most collagens, due to commercial processing, uncoil and lose their 3-D structure. To immune cells, this type of

collagen is recognized as a “foreign invader.” If this happens, your body’s

T-cells launch an attack against the collagen actually *causing* more pain and inflammation!

How does your collagen compare to Balanced Kollagen?

	Balanced Kollagen	Your Collagen
Pain relief	Clinically proven 95% less pain	?
Types of collagen	Types I, II, III, V and X	?
Type of processing	Special processing retains full pain-relieving power	?
Source of collagen	Completely natural sources	?
Speed of pain relief	Within 7 days	?
Method of extraction	Gentle, pH neutral process	Caustic chemicals?
Verification	U.S. Patented	?

No more painful injections for Lisa

Lisa T., age 53, from North Carolina was at her wit’s end. She suffered from disc issues and severe knee and back pain. Doctors told her she needed a double knee replacement.

She writes, “I’ve tried shots in my back and both knees....but they require taking time off work...they can be painful...and sometime don’t work. Not to mention the obvious cost.

“*Synovia* is wonderful. It has worked to greatly lessen my pain and improve flexibility through my whole body. I can touch my toes again! **With *Synovia*, I’m enjoying life again.** Thank you so much!” Individual results may vary.

But Balanced Kollagen's unique molecular processing allows it to retain its 3-D shape, so your body recognizes it as its own tissue—speeding pain relief to your joints.

Bottom line: No other collagen does what Balanced Kollagen can do: Works on the

molecular level to banish your pain by 95%...lubricate your stiff joints... restore and rebuild your joint cartilage...and prevent further joint damage.

And that's why Balanced Kollagen is yours in *Synovia*.

But that's not all...(continued on page 10)

Pain relief so powerful, it's patented!

Balanced Kollagen is patented under U.S. Patent #8,344,10681. In the clinical study testing its pain relieving power, results were off the charts!

- >> Greg saw such a decrease in pain, he no longer needs his walker!#
- >> Peter's knees improved so much, he cancelled his diagnostic arthroscopy!#
- >> Sue's pain lessened so dramatically, her quality of life improved by 60%!#

- >> Overall, people suffering from joint pain and cartilage injuries saw 85% of their pain gone in 30 days and 95% of their pain vanished in 120 days!

NEW!

Featuring Balanced Kollagen, clinically proven to reduce your pain by 95%!

Special micro-lubr "relief molecules"

Restores your joints' lubricating fluid and reduces friction without injections

Another reason you're likely in pain is your joints start to dry out. This lack of lubrication leads to eroding cartilage...
...bone-on-bone-rubbing...and excruciating pain.

Synovial fluid is the lubricating fluid found between your cartilage and bones. It bathes and lubricates *all* of your moving joints. The

membrane-lined cavities of your cartilage are normally filled with synovial fluid.

Knees creak when you bend? Shoulders crack when you lift your arm? Hips pop when you move too fast? Your joints are lacking lubrication, especially synovial fluid.

Together, your cartilage and synovial fluid cushion your joints like shock absorbers and keep your bones from rubbing together.

But without enough synovial

Your joints' built-in shock absorbers: Cartilage

icant delivers powerful deep within your joints.

fluid, your joints are like a bone-dry desert—and you feel the pain.

What's the best way to restore your synovial fluid?

A special molecule that holds up to **50 times** its weight in water!

The molecule is **hyaluronic acid**, the main component of your synovial fluid.

Hyaluronic acid is an amazing water-attracting molecule able to hold up to **50 times** its weight in water. This make it ideal for lubricating your joints.

Yet as you age, levels of hyaluronic acid in your body and your joints decrease, which leads to sagging skin and painful joints.

and synovial fluid

This is why, since the early 1990s, hyaluronic acid has been injected into joints to deliver “relief molecules” and boost synovial fluid.

But these shots are painful and expensive...only work on the joint treated...and only give temporary relief.

(Continued on next page...)

Oral hyaluronic acid beats popular pain relief solution

In a clinical study, 70 patients with severe knee pain took oral hyaluronic acid or popular pain medication to see which one was better at reducing pain and swelling.

After just 30 days, more than 8 out of 10 people taking oral hyaluronic acid had **NO** swelling. However, only 2 out of 10 people taking the pain medication experienced reduced swelling.

And for severe swelling, **ZERO** cases were found in the hyaluronic acid group, **meaning it was 100% effective at quelling severe swelling.**

Compare that to 9 out of 10 people taking the pain medication who still had severe swelling.⁽²⁾

That's why I'm excited to tell you about oral hyaluronic acid in a pill...

It's a special glucose form of hyaluronic acid that delivers the same injected "relief molecules" in a pill

When hyaluronic acid is injected with a needle, its molecules are large and only work in the targeted area.

But now, researchers have developed a special glucose form of hyaluronic acid that makes the molecules smaller, so they're more easily absorbed by your digestive system.

Since this "micro" hyaluronic

acid enters your bloodstream through your digestive system, it speeds "relief molecules" to every joint in your body. And this is why every daily serving of *Synovia* is packed with 75 mg of this special hyaluronic acid.

By taking *Synovia* every day, you'll...

- 1) **Boost declining levels of synovial fluid**
- 2) **Lubricate** your joints so they bend and flex painlessly
- 3) **Speed "relief molecules" deep within your joints**
- 4) **Prevent** grinding and friction of joints
- 5) **Feel relief** all over

According to *Nutrition Journal*...

"Oral hyaluronic acid relieves knee pain," and more than a dozen clinical studies prove it!

Nutrition Journal

Clinical studies conducted between 2008 and 2015 prove the pain relieving power of oral hyaluronic acid.

In a review of 13 studies, with subjects taking 80 to 630 mg a day of hyaluronic acid, results included...

- ✓ **Significant improvement in knee pain and discomfort**
- ✓ **Significant improvement in stiffness**
- ✓ **Significant improvement in joint pain, muscle function and strength**

The conclusion by researchers? **Oral hyaluronic acid is "safe and effective for relieving knee pain."**⁽³⁾

⁽³⁾ Oe, M. et al *Nutrition Journal*, 2016

By reducing pain 95%... lubricating your joints...and delivering "relief molecules" deep within your joints, *Synovia* has been proven to be powerfully effective at relieving pain.

Yet it does even more to end the suffering of pain, as you'll now see... Dear Pain-

Better knees, no doctor, no shots!

George S. of Pennsylvania was hurting due to severe pain in both knees. But now he reports, "I have noticed an improvement in my knee joints after using *Synovia* for only one month. **My right knee is feeling much better without needing to see my doctors for a shot.**"

Hyaluronic acid paves the "pot holes" in damaged joints

When your synovial fluid dries up, cartilage in your joints erodes—creating pot holes.

These rough patches make bending and flexing difficult, if not impossible—and painful.

But when you restore hyaluronic acid with *Synovia*, it's like re-paving those pot holes. You rebuild cartilage and restore lubrication—for easy moving, pain-free joints.

Oral hyaluronic acid was 100% effective at quelling severe swelling.

—*Clinical Nutrition Supplements*

"Hyaluronic acid is a cushion and lubricant for your joints"—*WebMD*

Florida golfer in heaven thanks to *Synovia*

Playing golf three times a week is sure to put a smile on 77-year-old Frank T.'s face. But knee problems were putting a kink in his golf game.

Frank recently had stem cell injections in both knees, but he didn't have the total flexibility he was looking for.

So he began to take *Synovia*. He happily reports, "*Synovia* has improved my mobility in the short time I've been taking it. I have recommended it to my friends...thank you for *Synovia*."

Remarkable case studies with *Synovia*

No more bone-on-injections for Willi

For years, William B. of Tennessee, age 87, suffered from bone-on-bone ankle problems.

The pain was so bad, he had to get injections every two months.

But since taking *Synovia*, relief has been, in his words, "Absolutely wonderful! The pain and swelling had disappeared with no side effects. Thank you—I am back living normal again!"

>> Barbara's loving the relief for her back and knees!

Barbara B. of Salt Lake City knows what it's like to have a bad back. After all,

her back was "killing" her for two years.

She took shots and tried everything doctors recommend to no avail.

But now she happily reports, "I've been taking *Synovia* for one and half months, and it's amazing. Now, I wake up every morning without a back ache.

"I've also had my knees replaced and have no problems with my knees. I'd recommend *Synovia* to anybody in pain—back pain, shoulder

bone pain, no more am!

pain, any pains. I just re-ordered two bottles. Thank you very much.”

>> From cortisone shots to almost zero pain!

Severe shoulder pain made life difficult for 61-year-old Pam S. of Ohio. She had three cortisone shots but only got temporary relief.

The pain got so bad, she could not lift her right arm above her head...sleep on her right side...or even lift up her grandchildren.

So she tried *Synovia*. After taking the first bottle, she reports, “What a difference *Synovia* has made in my life. My pain has improved to the point I hardly notice that I have it.

The product is awesome. I can lift my arm sleep on my side and lift my grandkids. Thank you *Synovia* for giving my life back!”

>> Knee replacement surgery postponed!

Joe D. of Pennsylvania, age 56, suffered from terrible pain in his right knee for the past 2-3 years.

The pain got so bad, he had seriously considered knee replacement surgery. He tried injections (which provided temporary relief), as well as therapy—with little or no benefit.

Then he tried *Synovia*. He writes, “To my pleasant surprise, *Synovia* has helped me noticeably. There are now days I don’t even know I have knee pain. I’m thankful that the pain is so much less, surgery is not even a consideration.”

*Individual results may vary

Tina says, “Watch me walk, fast, with no limpi

For most of her life, Tina F. of Tennessee has been plagued with pain in her neck, back, hands and feet.

Pain in her ankles and feet meant she was limping...and had to walk very slowly.

Tina had tried many other pain relief products without much success. But then she tried *Synovia*...and what happened next was, in her own words, like “a miracle.”

She reports, “*Synovia* is like an answer to prayer. I get around better. I can walk without limping. I feel so much better. *Synovia* has truly improved my life.

“I ask my friends and family, ‘Do you notice something different about me?’ That’s right—watch me walk...I can walk fast with no limping. I am one happy person now. Thank you.”

>> Shots gave Arthur only short-term relief!

Sometime ago, Arthur M. of Pennsylvania incurred severe pain in his left shoulder. At the orthopedic clinic, he got a shot but it only worked for three days.

Then he read about *Synovia*. He showed the article about it to a Nurse Practitioner who works at his retirement community and asked her if it was safe to take. She said, “Yes,” so he gave *Synovia* a try.

Arthur gratefully says, “I

have been taking *Synovia* for five weeks and the pain has been substantially reduced.”

>> For John, this is “much easier than weekly injections!”

John S. of Colorado had knee problems that got so bad, he needed weekly injections.

Then he read about *Synovia* and got excited to know it could work to relieve pain in all his joints. So he started taking it.

He reports, “I’ve been taking *Synovia* as directed, and in a very short time the problem with my right shoulder has disappeared and my right knee is feeling well enough that two flights of stairs are becoming

easy. Taking *Synovia* is much easier than once-a-week injections. I highly recommend this product.”

*Individual results may vary

Marine marvel is **800 t** CoQ10 at quelling pain

Besides depleted collagen and synovial fluid levels, another cause of pain is free radical damage.

Left unchecked, free radicals can trigger pain and inflammation in your body that can last for years.

As you know, to fight off free radicals you need antioxidants

▲ Your cells are under constant attack from dangerous free radicals.

that “defuse” free radicals at the molecular level and make them non-toxic.

But what you may not know is that most antioxidants

only squelch one type of free radical at a time—and if you’re in pain, that’s not good enough.

This is why *Synovia* includes a

James is back pla

James C. of California, in his late 50s, loves to play competitive tennis in the USTA circuit. But nagging pain in his knees and hips means he couldn’t play tennis on consecutive days. So he tried icing his knees and OTC pain relievers without much success.

Then *Synovia* caught his eye—and everything’s better. He reports, “I’ve only been taking *Synovia* for two weeks and my knee and hip pain have gotten...better. I’ve already recommended *Synovia* to my wife, my doubles partners, and she’s

imes more potent than -causing free radicals

marine marvel that's been hailed as...

"Nature's strongest antioxidant"

What is this super antioxidant? It's **Astaxanthin**, a unique natural pigment primarily found in deep sea plants. Salmon and shellfish get their pinkish color from eating small organisms that eat astaxanthin-rich algae and

plankton.

Among antioxidants, **astaxanthin stands alone because it can squelch many different kinds of free radicals at once—and works in every part of your body.**

Plus, when I started looking into the research of how astaxanthin quells pain-causing free radicals, I was stunned.

In one study conducted in

(Continued on page 23...)

ying tennis thanks to *Synovia!*

thrilled that I got it and is looking forward to enjoying relief from it, too."

>> **"I cried just to walk because my knees hurt so bad.** I called the doctor and asked how much shots cost, and he said \$1,000. We lost our insurance so I tried your product. Thank you for blessing me

with less pain...*Synovia* is an answer to prayer."

Hidden problem corrodes your joints and triggers pain

Let me tell you about a hidden cause of joint pain conventional solutions fail to address.

It's high acidity measured by a low pH. In fact, many chronic pain problems are linked to acid/alkaline imbalance.

What causes too much acid in the body? Primarily a diet of too much meat, eggs, dairy, white flour, coffee, soft drinks and artificial sweeteners.

When your body attempts to neutralize all that acid, it creates more free radicals which trigger pain and inflammation. Worse, high acidity corrodes your joints and cartilage.

Unless your pH is slightly alkaline, your body cannot repair or heal and itself. And that can lead to pain that just won't go away.

(5) Morton, S., et al. The Mortec Scientific Group, Ontario Canada, August 30, 2013

Great news! Balanced Kollagen found in *Synovia* is clinically proven to reduce acidity by 57%.

In a clinical study, Balanced Kollagen raised pH from 4.7 (acidic) to a pH of 7.38 (more alkaline).⁽⁵⁾

No wonder why Balanced Kollagen helped people taking it reduce pain by 95%!

Find out more about why making your body more alkaline and less acidic reduces pain in a Special Report: *The Odd German Joint Pain Solution That Led to 6,000 Success Stories*, yours **FREE** when you order *Synovia*.

FREE SPECIAL REPORT!

(...continued from page 21)

Japan, astaxanthin was compared to other popular antioxidants eliminating singlet oxygen free radicals. The results? Remarkable!

Astaxanthin is...

- >> **6,000 times more potent** than vitamin C
- >> **800 times more potent** than CoQ10
- >> **550 times more potent** than green tea catechins
- >> **75 times more potent** than alpha lipoic acid⁽⁶⁾

What's more, *natural* astaxanthin was shown in a study at Creighton University School of Health Sciences to be more powerful at scavenging free radicals than *all* other antioxidants.

The proof? When it comes to stopping pain-causing free radicals, astaxanthin is shown to be...

- >> **14X stronger** than Vitamin E
- >> **54X stronger** than Beta Carotene
- >> **18X stronger** than Pycnogenol®

(6) Nishida, Y. et al. Carotenoid Science 2007

 (8) Park, J.S. et al, Nutrition & Metabolism, 2010
 (9) Nir, Y. et al. Health Research and Studies Centers, Los Altos, CA Study Report, May 2002
 (10) Spiller, G. et al. Health Research and Studies Centers, Los Altos, CA Study Report, Jan 2006
 (11) Department of Exercise and Health Sciences, Faculty of Education, Yamaguchi University, Yamaguchi, Japan

- >> **65X stronger** than Vitamin C
- >> **21X stronger** than synthetic astaxanthin⁽⁷⁾

What about relieving your pain and inflammation? Very impressive!

Astaxanthin has also been proven to slash inflammation and pain.

In one study, subjects taking 2 mg of Astaxanthin a day for eight weeks saw lower levels of C-Reactive Protein—the key indicator of inflammation.⁽⁸⁾

In addition, Astaxanthin alone or as part of a combination of nutrients has been proven to...

- ✓ **Effectively relieve severe joint pain⁽⁹⁾**
- ✓ **Relieve pain caused by Carpal Tunnel Syndrome⁽⁹⁾**
- ✓ **Alleviate pain and improve strength grip of tennis elbow⁽¹⁰⁾**
- ✓ **Help reduce muscular atrophy (weakness)⁽¹¹⁾**

This is why you'll be glad to know *Synovia* includes **4 mg of Astaxanthin** in each pill.

Yet the news is even better as you'll now see...

valued at \$188.80.

Plus, why not order *Synovia* today since you won't risk one cent thanks to...

A LARGE PRINT, No-Risk, No-Questions-Asked Money Back TRIPLE GUARANTEE

Thousands of pain-suffering people have tried *Synovia*—and they love it! Best yet, you can now try it without risking one penny. *Synovia* works for you, or it's FREE.

In fact, your order is protected by not one but *three* Money-Back Guarantees including...

■ **Money Back Guarantee No. 1:** *Synovia* is the FIRST and BEST in a whole new class of painkillers called MPRs. Molecular Pain Relievers deactivate pain at the molecular levels and give you relief even when other pain relief solutions have failed. *Synovia* works for you, or your money back!

■ **Money Back Guarantee No. 2:** *Synovia* includes nutrients clinically proven to reduce pain by 95%...restore your joints' natural lubricating fluid... and squelch pain-causing free radicals. *Synovia* works for you, or your money back!

■ **Money Back Guarantee No. 3:** *Synovia* will give you relief for your knees, hips, back, neck, hands, fingers, legs and joints without injections, medications or side effects. *Synovia* works for you, or your money back!

In fact, try out *Synovia* for a full 60 days. If during that time or at the end of that time, you're not thrilled by the relief you get with *Synovia*, just return the bottles—opened or not—for a FULL, 100% REFUND of every penny you paid. No questions asked. Plus, your FREE Gifts are yours to keep.

So don't suffer one more second. Order *Synovia* today!

Why does *Synovia* work when so many pain relieving "solutions" only work on a temporary basis or don't work at all?

Alleviate ALL types of pain with *Synovia*

Here's the kind of pain relief *Synovia* offers, based on clinical studies and customer comments...

No "Black Box" warning needed! Get safe, natural pain relief.

One thing people taking Synovia really appreciate is it brings them blessed relief safely, gently and naturally—with zero worry about side effects.

Not so with conventional painkillers that are required to have a "Black Box" warning label on their boxes notifying users of potential side effects like bleeding or perforation of the stomach...extreme fatigue... dizziness...or constipation.

More serious side effects of conventional painkillers include difficulty breathing...rapid weight gain...muscle cramps...decreased hearing... or abdominal cramping.

Now, take Synovia with peace of mind you can get safe, safe pain relief!

As you've read, *Synovia* works differently, as the FIRST of a whole new class of painkillers called MPRs (for Molecular Pain Relievers).

Synovia is the only pain-relieving formula I've found with nutrients clinically proven or shown to...

- >> **Reduce pain by 95%**
- >> **Reduce pain-causing acidity by 57%**
- >> **Deliver "relief molecules"** deep within your joints
- >> **Restore your body's natural lubricating fluids**
- >> **Restore and repair** damaged joint cartilage
- >> **Defuse pain-causing free radicals** better than any other antioxidants
- >> **Relieve pain in your knees, hips, shoulders, back, neck and joints**

Even better, as I noted, you can now try *Synovia* at 33% savings and without risking one cent.

Ordering is easy. For fastest service, call TOLL FREE 1-888-973-8076 anytime 24 hours a day, 7 days a week. Or return the RSVP Pain Relief Certificate in the postage-paid envelope to:
AS Research, LLC, 384 Green Leaf Dr., Grovetown, Georgia 30813.

If you want to relieve, even end, your pain starting today, order *Synovia* now. Remember, *Synovia* works for you—or it's FREE!

Yours for better health, the natural way,

Jack Isler, M.D.

P.S. Don't forget. Your "Best Deal" of *Synovia* includes savings of 33%...three FREE Special Reports...and FREE shipping—a total of \$188.80 in savings and FREE Gifts.

P.P.S. And you won't risk one cent thanks to A LARGE PRINT, **No-Risk, No-Questions-Asked Money Back Triple Guarantee.** So order today!

For fastest ordering, call TOLL FREE 1-888-973-8076

Clinically proven and patented.

95% pain relief so good, he gave away his walker!

A clinical study was conducted in Ontario, Canada to test the effectiveness of the **FIRST** of a whole new class of painkillers which works in a completely different way to relieve your pain.

The results? Off the charts!

» Greg saw such a decrease in pain, he no longer needs his walker!*

Overall, results for people suffering from joint pain and cartilage injuries were stunning:

- ✓ 85% of pain gone in 30 days!
- ✓ Nearly a 30% increase in flexibility in just 7 days!
- ✓ 95% of pain vanished in 120 days!

Now, this breakthrough is a key “active” ingredient in a new pill that helps banish your pain without needles, surgery or side effects.

Greg got so much relief, he no longer needs his walker!

“Being able to get pain relief without needles, surgery or medications is remarkable. I’d recommend this pill at the first sign of pain.”

—*Jack Isler, M.D., pioneer in natural medicine and author of 21 Broken Bones: A Guide to Understanding and Controlling Your Pain*

Exhibit C

Costly Joint-Pain Injections Replaced By New \$2 Pill

New pill boosts the same lubricating joint fluid as expensive and painful injections - without using a needle. Users report dramatic relief from swelling, pain and stiffness without side effects and expense.

A popular needle injection for people with joint pain is now available in an inexpensive nonprescription pill. The breakthrough came when researchers discovered a way to deliver the injected "relief molecule" through the digestive system.

Top US clinics have used these needle injections for years because they deliver powerful relief. Unfortunately, the shots are painful and expensive. They also only work on the joint being treated.

The new pill, called Synovia, delivers the same "relief molecule" as the injections. However, it has some impressive advantages. First, it's inexpensive and nonprescription. Also, relief is delivered to every joint in the body because it enters the bloodstream through the digestive system.

This gives it the ability to reach a much wider variety of pain. Users report greater flexibility and less stiffness in their knees. Hands and shoulders move pain-free for the first time in years. Even neck and lower back pain improve dramatically.

All this without spending over \$600 on needle injections and taking trips to the doctor every week.

The medical community is very excited about this new breakthrough. Dr. Jacob Moss says, "Synovia is a great option for those suffering from joint pain. Injections are usually a last resort because of the pain and expense. However, Synovia should be taken at

the first sign of discomfort."

New Discovery

The needle injection procedure has been given to hundreds of thousands of patients over the last several years.

Doctors use the shots to boost a critical element of the joint called synovial fluid. This lubricating fluid is found between the cartilage and bones of every joint.

According to the firm's head of R&D, Mike McNeill, "Researchers have been working for years to find a way to boost this fluid noninvasively. The problem was the molecule used in the injections was too large to absorb into the bloodstream."

Top scientists conquered this obstacle by finding a smaller form of the same molecule. This new glucose form is easily absorbed by your stomach and intestines!

Now those who suffer from joint pain can get relief without painful injections. At less than \$2 per day, early users like Steve Young are impressed. He says, "I've tried more pills than I can count, without any luck. Synovia is different. My knees and hands haven't felt this good in years!"

Impressive Clinical Results

Leading clinics use injection therapy because it works. Recent clinical trials show the pill form also delivers major relief.

One example is a landmark study out of Europe. In the study the active ingredient in Synovia was compared to a popular NSAID pain reliever. The goal was to see if it could reduce pain and swelling around the knee. The results were incredible!

After just 30 days, more than 8 out of 10 people who took Synovia's active ingredient had NO swelling. However, only 2 out of 10 people who took the NSAID experienced reduced swelling.

The study also looked at cases of severe swelling. Amazingly, zero cases of severe swelling were detected in the group taking the active ingredient found in Synovia. This means it was 100% effective for the cases of severe swelling!

In contrast, 9 out of 10 people taking the NSAID still had severe swelling. McNeill points out, "The impressive thing about this study is the active ingredient wasn't tested against a fake pill. It was up against one of the most popular NSAIDs people use every day. It's easy to see why people in pain are excited to get relief without an injection."

The New Way It Delivers Relief

Getting relief without injections has big advantages. The most obvious is avoiding being stuck by a large needle every week for 5 weeks.

Another downside of injections is the doctor can "miss". The needle needs to be inserted into a precise spot in the joint to work. Otherwise, you risk the treatment being ineffective.

However, boosting your lubricating joint fluid by taking a pill delivers relief to all your joints, not just one.

There's an additional reason the active ingredient in Synovia works so well - it nourishes the cartilage.

McNeill says, "This is vital because cartilage does not have blood vessels. The fluid in the joint serves two very important pain-relief roles: lubrication

NO MORE NEEDLES: A popular needle injection pain-killer for joint pain is being replaced. The key molecule in these injections can now be delivered by taking a new low-cost pill called Synovia.

and giving the cartilage the nutrients it needs to start re-growing."

Approved By Leading Doctors

The new delivery system for this molecule has caught the attention of leading medical doctors.

"Needle injections for joint pain have been around for years because they work. Being able to get the same relief molecule through a pill is amazing. Injections may be a last resort, but I'd recommend Synovia at the first sign of pain," said Dr. Marie Laguna.

Dr. Gerardo Pereira, a renowned surgeon from Florida says, "Injections aim to boost synovial fluid, which lubricates the joint. Those suffering from joint pain usually have very little of this fluid. Synovia helps relieve pain by boosting this key lubricant without needles."

Dr. Moss adds, "The research behind the active ingredient in Synovia is very exciting. This product is a great choice for those who haven't had success with other joint pain treatments."

110% Money Back Guarantee

Amazing feedback from users of Synovia has generated a wave of confidence at the company. So much so that they now offer Synovia with a 110% money back guarantee.

The company's president, Michael Kenneth says, "We've seen how well it works. Now we want to remove any risk for those who might think Synovia sounds too good to be true."

Simply take the pill exactly as directed. You must enjoy fast acting relief. Otherwise, return the product as directed and you'll receive 100% of your money back plus an extra 10%.

How To Get Synovia

Today marks the official nationwide release of Synovia. As such, the company is offering a special discounted supply to everyone who calls within the next 48 hours.

A Regional Order Hotline has been set up for local readers to call. This is the only way to try Synovia with their "110% money back" guarantee.

Starting at 6:00 am today the order hotline will be open for 48 hours. All you have to do is call **TOLL FREE 1-888-597-4044** and provide the operator with the special discount approval code: SYN18. The company will do the rest.

Current supplies of Synovia are limited, and callers that don't get through to the order hotline within the next 48 hours may have to pay more and wait until more inventory is produced. This could take as long as 6 weeks.

BEFORE: No lubricating fluid or cartilage leads to painful bone-on-bone rubbing.

AFTER: Synovia's active ingredients lubricate joints and nourish cartilage so it can re-grow!
