Why Does it Have Scientists And Media Buzzing?

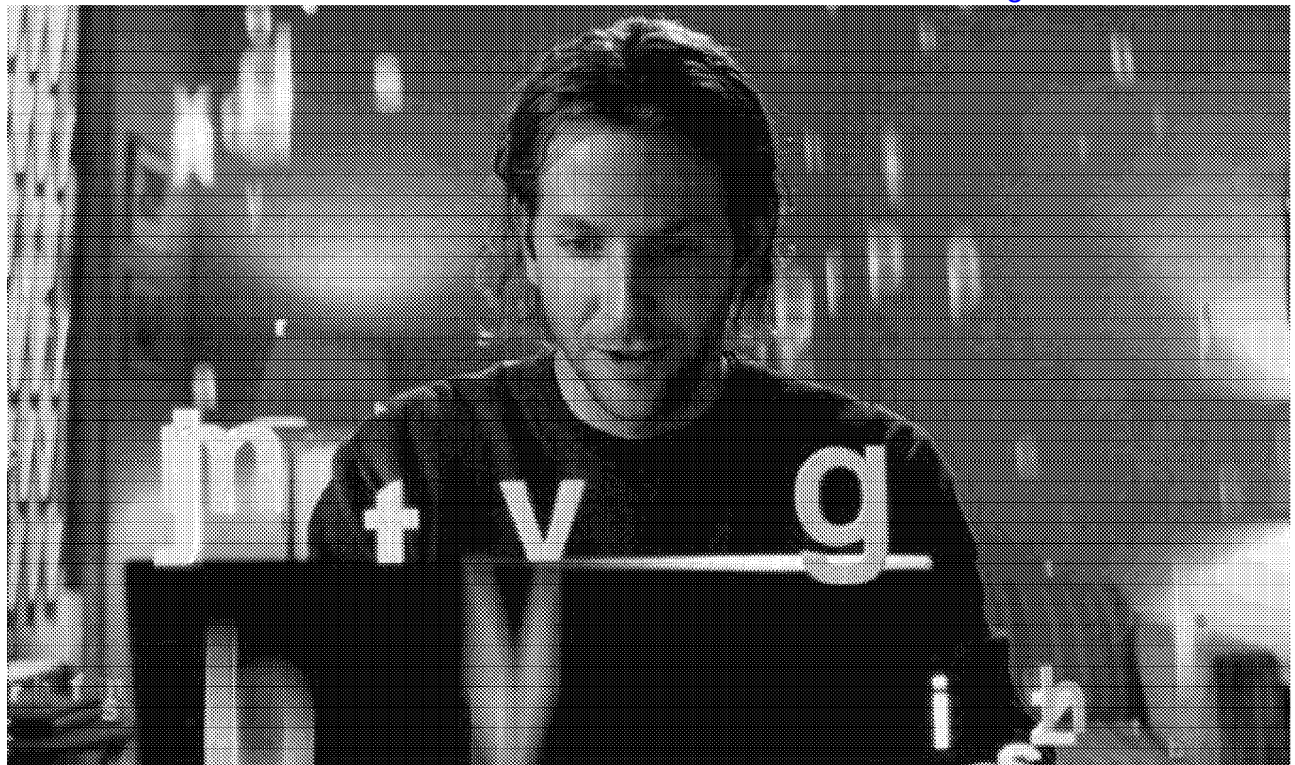

Experts say the majority of humans only use 10% of their brain's potential. What if there was a pill that could unlock the other 90%? Clinical Trials have shown that Geniux boosts brain power by up to 89.2%, increases focus by up to 121%, and sky-rockets your energy levels.

Geniux is the most advanced and effective cerebral enhancement complex in the world. The goal is to not only increase mental energy and overall alertness, but to support the other important functions of your brain as well. Unlock your brain's potential for the first time with our all new natural formula. Feel the effects within the first 30 minutes.

The Real Life "Limitless Pill"

The creators of the Limitless Movie have cited Geniux as the inspiration for the fictional drug NZT-48. This is because Geniux contains ultra high-quality sources of ingredients that are scientifically proven to work. Here are a few highlights:

- ✓ Improved speed of visual information processing, learning rate, and memory consolidation (Bacopa Monnieri)
- ✓ Significantly reduce physical and mental fatigue, improve well-being, and improve IQ scores (Alpha GPC)
- ✓ Enhance memory and learning performance by 89.2% (Huperzine A)
- ✓ Increase focus and concentration by 121% (Vinpocetine)
- ✓ Promotes mental alertness and reduces stress without a sedation effect(L-Tyrosine)

How Does Geniux Work?

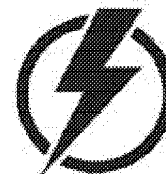

BRAIN HEALTH

MEMORY

FOCUS

ENERGY

Boost Brain Power - Geniux uses a scientifically-engineered stack of maximum strength nootropics, known as “smart drugs,” to help increase brain activity, mental performance, and vigilance.

Enhance Memory Recall - Simply put, Geniux “wakes up your brain” and allows you to think clearly, process data more quickly, and retain more information. Only Geniux gives you the focus and concentration you need to work smarter, work longer and get the job done.

Skyrocket Concentration - Geniux allows you to ignore constant distractions and focus on the task at hand. It “zooms you in” so you’re motivated, alert, and find yourself concentrating harder and remembering more than ever before.

Improve Energy Levels - Geniux delivers an incredible burst of energy that takes effect within minutes and lasts up to 6 hours. The powerful stimulants give you incredible, long-lasting energy without the crash or jitters of energy drinks or harmful side effects of prescription medication.

-  100% Pure Phosphatidylcholine

WHAT IS GENIUX?

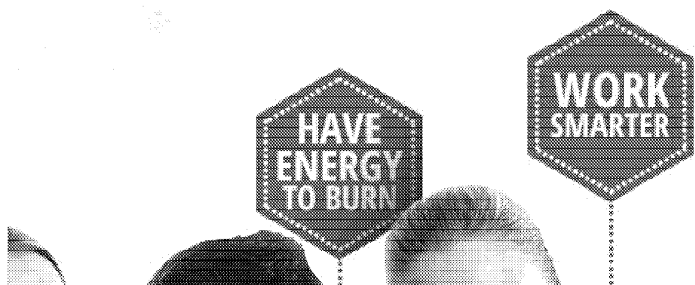

A FAST, SAFE WAY TO GAIN A MENTAL EDGE

GENIUX

is an expertly crafted cognitive enhancement supplement that has been studied and produced by a top-quality, cGMP certified and FDA licensed laboratory environment under the most rigorously professional conditions.

The positive mental benefits provided by the ingredients in Geniux have been published by organizations such as Science magazine¹, the American Journal of Clinical Nutrition², and the Center for Human Psychopharmacology³.

Geniux - research drives results!

THE BENEFITS OF GENIUX

CONFIDENTIAL

INN000089

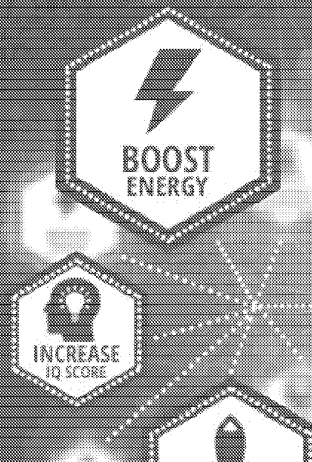

- ✓ Help conquer the pesky distraction that sabotages your ability to focus and finish important projects, without the jittery feeling that too much caffeine can create.
- ✓ Treat your brain to the protective benefits of antioxidants while increasing cerebral blood flow and promoting healthy neurotransmitters.
- ✓ Geniux isn't just any smart supplement - it's a custom blend with a detailed approach to formulation based on ingredients that have been studied by several top scientific journals.
- ✓ A safe, fast way to load up on compounds that studies suggest can increase focus, concentration, and mood regulation.

WHY FOCUS WITH GENIUX

GENIUX isn't your ordinary supplement. It contains ingredients that not only enhance your ability to think

CONFIDENTIAL

INN000090

clearly and focus in the short-term, but also provide important protective benefits for your long-term cerebral health. By increasing your brain's natural production of acetylcholine, Geniux promotes enhanced neurotransmitter function.

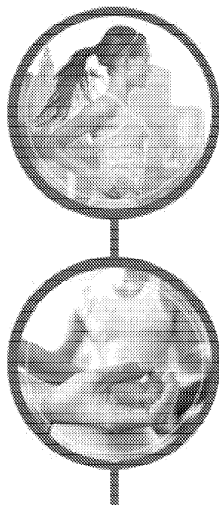

SKY-ROCKET
MEMORY

Other "nootropic" smart supplements are slow to reveal the ingredients they contain, but Geniux's blend has always been based on ingredients with a track record of thorough

HOW DOES GENIUX WORK?

It's no secret that "nootropics", sometimes called "smart supplements", are hugely popular today. The ability to enhance the human brain's processing speed and sense of clarity is a well-documented

STEP #1

DMAE bitartrate begins working by boosting oxygen levels in your blood⁴, helping to increase alertness and spike motivation.

STEP #2

Bacopin[®] begins to increase cerebral blood flow⁵ and allow for improved memory recall.

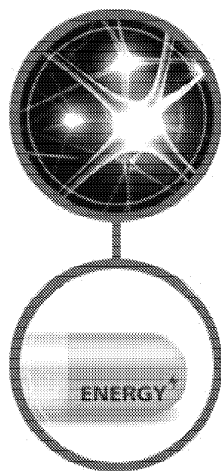

STEP #3

CONFIDENTIAL

INN000091

phenomenon, but what makes Geniux the best nootropic available?

Geniux relies on ingredients that peer-reviewed research has shown exciting potential to improve intellectual activity, enhance mood, and provide increased focus. Importantly, these studies were primarily conducted on individuals with normal cognitive function, meaning that the people participating in the studies were regular, everyday people like you. Best of all, the incredibly high-quality FDA licensed laboratory environment used to manufacture Geniux ensures that each and every pill is of the highest, professional-grade standard.

Next, Choline begins to repair neurotransmitters that have taken free radical damage or normal wear and tear from high-level cognitive function⁶.

STEP #4

Finally, GABA acts as a calming agent⁷ to ensure that you avoid any feeling of being jittery or "on edge".

The Problem

Most people start to notice loss of "brain power" or "cognitive performance" as early as 30 years young. If you are suffering from cognitive decline you may notice symptoms such as:

- Memory loss
- Forgetting things like your keys or wallet
- Difficulty concentrating
- Lack of focus
- Lack of motivation
- Extremely low energy
- Less able to perform mentally

"We lose up to 60% of our mental focus from age 25 to age 70"

QUICK FACTS ABOUT YOUR BRAIN

- The brain begins to lose sharpness of memory from as early as 30
- Common foods we eat every day can deplete our brain capabilities
- If you do not follow a strict brain diet or take a daily enhancer such as GENIUX your brain will begin to decline in performance, causing you to rapidly lose memory and focus as you age

Fuelling your brain with the all natural ingredients found in GENIUX is the safest and fastest way to increase your daily energy levels

TRY RISK FREE

THE SOLUTION

GENIUX [ADVANCED-BRAIN-FORMULA]

MEMORY LOSS

The ingredients in GENIUX have been proven to increase memory recall in men and women of just about all ages. Men and women in their early twenties to late thirties noticed significant increases in their short term memory recall and some increases in long term memory recall where people from 40 to the age of 65 noticed drastic increases in both!

LOW ENERGY LEVELS

GENIUX's advanced formula is built to give you a boost of energy as soon as you take it and keep you alert and focused throughout the day. The days of the 3 o'clock crash are over as soon as you take the GENIUX experience! You will remain energized and focused until the moment you close your eyes for bed.

OVERALL WELL-BEING AND HEALTH

Studies show that people who do not take care of their brain are less healthy and more subjective to Alzheimer's and other serious health issues as they age. Your body works based off of what your brain tells it. If you take care of your brain your body will naturally follow!

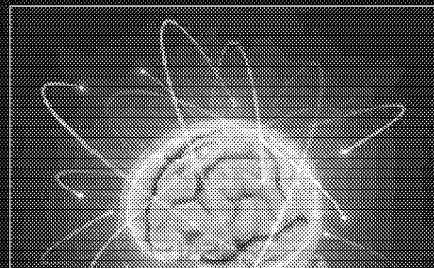

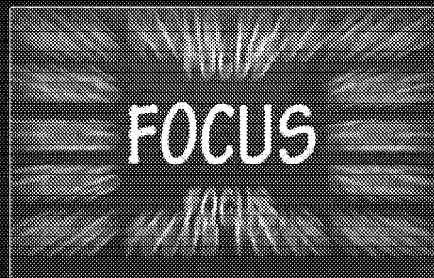

LACK OF FOCUS AND MOTIVATION

Every day our bodies change a little bit and some of our brain cells die. As we age we begin to feel the effects of this and find it extremely difficult to stay focused or be motivated. Do you notice yourself misplacing your keys or wallet more and more or forgetting to do little tasks around the house like taking the trash out until the trash truck comes? That's because as we age our mental health naturally declines from the daily stress we put on our brains. That is why you need GENIUX - It's one of a kind formula was engineered to ensure your brain get's all of the ingredients and vitamins it needs in the exact dosage it needs it to improve all areas of cognitive growth, including focus, energy, short and long term memory, problem solving capabilities and much more.

GENIUX

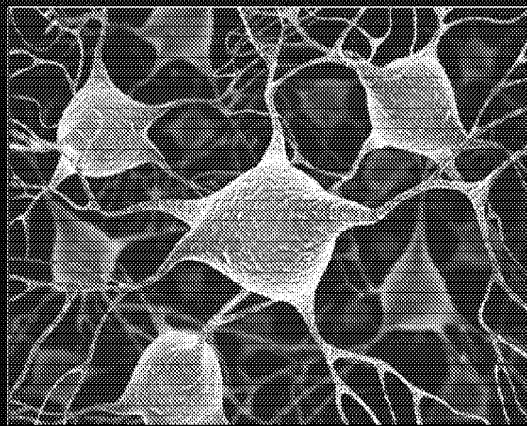

Is the #1 natural cognitive enhancer that is guaranteed to noticeably improve your focus and memory within the first week as well as increase your energy levels and get rid of that feeling of mental fatigue forever!

- ➔ Thousands of satisfied customers cannot be wrong! Check out some of our FaceBook comments below for proof.

Men'sHealth

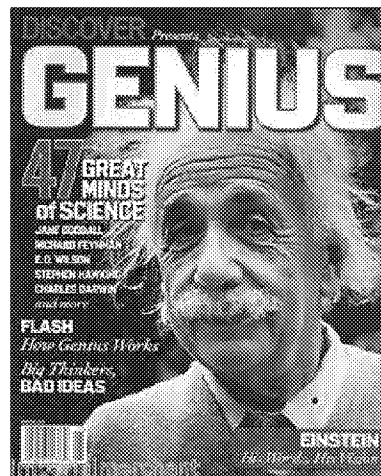

'Welcome To The Future' - American business magnates, investors and Billionaires don't let their age affect any of their decision making or business solutions. Instead, they rely on a lesser known "secret" to aid them where they are now today. The secret? A brain pill. Other business moguls admitted to using this product to help keep their minds intact. We're not saying you can be rich like these billionaires instantly, but it will enhance your memory, critical thinking, analyzing/interpreting ability, and creation of new ideas, which will lead you to the right path of success. It's called **Geniux™** (medical name: E-Huperzine).

There's already been previous controversy around the memory-enhancing limit less pill. Heavily praised by Scientists as 'the missing link in human evolution' in their report as 'Boosting the Brains Potential', when released, the use of **Geniux™** became widespread amongst young professionals.

Geniux™ soon became known as the 'most powerful self-development trick on earth'. Not long after, everyone from quiz show contestants to university students were taking the pill to get better grades, triple their salary and achieve peak performance in little time. **Geniux™**, which has no recorded side effects in any trials, was soon the target of several major pharmaceutical companies who claimed it gave people an unfair advantage over anyone who was unaware of its existence. The pill was eventually banned on shows like jeopardy! and at top universities such as Cambridge before production of the pills were halted.

In this issue of Discover. This month's issue includes a Special Offer Inside! This Offer Is Only Available Online! **Geniux™**

*NOTE: You must use this product as directed to achieve the same results. This Exclusive Offer is Limited Due to Overwhelming Demand.

Reviewed In This Article

Taking this product daily produce's amazing results

SOURCES: BUSINESS INSIDER, CNN, NEW YORK MAG

After several years and over 2000 trials at The Nottingham Clinical Trials Unit (NCTU), **Geniux™** pills are back in production and recent reports are proving the superhero making drug is more powerful then ever. The secret to

pill's improved formula? B6.

Yes, you read that right: B6 has been praised for its ability to rejuvenate and heal the mind for centuries. Combining this with the already powerful ingredients of **Geniux™**, and your mind will be clearer than that of a Zen-monk's. Your ability to focus and power through your to-do list will also be a thing of the past and after consistent use, you will become the perfect version of yourself. Many people thought something like this wouldn't exist for another hundred years but as Dr Raqif said: welcome to the future.

Critics of the pill are of course making their voices heard and if the effectiveness of **Geniux™** is stronger than it previously was then these will not be around much longer. With such a powerful opportunity to lower your stress levels, master your emotions and triple your salary, it's only a matter of time before **Geniux™** pills are once again the target of major pharmaceutical companies who are seeing a decline in their profit.

Discount Bottles of Geniux™

This clinically proven supplement **Geniux™** is shown to boost brain activity.

We tested it ourselves – is it all hype!

With so much media praise and countless reviews of people experiencing success with **Geniux™**, The Discover Magazine wanted to verify whether this was all hype. After almost every single man in the building volunteered to test it out but we chose our Senior Chief Editor Alan Frasier. Below is his account of using **Geniux™** over a 4 week period.

Summary of Alan's **Geniux™** pills experience

The **Geniux™** pills were extremely hard to come by. We had to wait 2 weeks before we got a bottle to test as it was sold out almost everywhere or over \$300 a bottle from people trying to sell it for profit ebay. People were paying top dollar for them on there.

I took the recommended dosage and maybe 20-30 minutes later I felt odd. I can only describe it by saying my mind felt calm and still. It was like that feeling you get when you have just woken up. Light headed so to speak but this was different. I was light headed and spaced out but in the zone at the same time. Can't explain it - but it was awesome.

Over the course of the 4 weeks I found myself bouncing out of bed and felt ready to take on the day -- usually I need to snooze 3 times. I felt motivation to get stuff done and often power through.

Things that annoyed me were no longer an issue. I hardly got stressed and when I did, I was able to control my emotions and get back into peak performance and state.

My thoughts on **Geniux™** are that, the pills are the real deal. I've tried modafinil and other smart drugs but this is by far the closest thing to feeling like you are Bradley Cooper from Limitless.

If you happen to come across these, you can move on with your day and go about your life or you can spare 2 minutes and take what is the most important step to becoming the man you want to be.

Because of recent coverage in the media, supplies are running very low. You can check to see if **Geniux™ is still available.

Geniux™ was recently given honorary mention in Forbes' printed and online magazine editions as being the pill that can turn you into 'the quickest thinker on the planet'.

- Sky-rocket Concentration
- Improve Creative Thinking
- Boost Energy
- Enhance Memory Recall
- Elevate Work Productivity

Should **Geniux™** be legal?

When **Geniux™** was originally banned a lot of people were angry. There were no side effects then and as it stands there are no side effects with the stronger formula. Here are clinical studies of the main ingredients in this product ([Clinical Study #1](#), [Clinical Study #2](#)). That said, all our users followed the directions and did not go overboard so it's strongly recommended to use common sense when taking these.

Geniux™ is the only pill of it's kind where the user benefits and grows the more he takes. Normally the body gets used to most medications but throughout all trials all users made continued progress as the weeks went on. In regards to whether these should be legal? Yes they should. In fact, they never should have been banned. The truth is the 'health and safety' of the product was never a concern. Major competing companies created uproar due to their heavily sinking profits when **Geniux™** was becoming widely used. Even more companies are joining in this time so we have no doubt that production of **Geniux™** pills will be stopped once again. The question is, will you be one of the lucky few who have their hands on the next step of human evolution? James Rickman, The Discovery Magazine

James Rickman is a resident scholar at the American Enterprise Institute in Washington, D.C and lead contributor to The Discovery Magazine.

Week One:

The first day of taking **Geniux™** was an experience in itself. I started to feel a sense of calm after about 15 minutes. 30 Minutes later I had what felt like 360 degrees vision. My mind was clear and calm. Nothing like coffee. After one week of using **Geniux™** my energy levels are up, and it's not like a typical coffee rush. This is a smooth boost of long-lasting, natural energy without the crash... I love it! My brain honestly felt CLEAR for the first time in years, and this was just after a few short days. I woke up today (day 7) feeling like a new and improved me. I had one of the most productive weeks I could remember and felt like I owed it all to this tiny pill. But I was still a little skeptical. To be honest, I'm still a little skeptical. If this week wasn't a fluke things are definitely looking up for me But I am reserving judgement.

Week Two:

After two weeks of using **Geniux™**, I'm feeling even more focused and energized than before. Today I had what I would have called a "long day" and it hasn't even bothered me! I'm more focused right now (after a 10hr work day) than I would normally be waking up. I'm bouncing out of bed. I wake up earlier without an alarm. It's great. I always woke up lethargic and like a zombie. Thinking about it now, that hasn't happened once. I literally wake up and I'm ready to take on the day. It's a truly unique experience. My focus and concentration is pretty damn good. But I found I need to set alarms otherwise it is very easy to get carried away. Yesterday I want meant to meet some friends but was so absorbed in work. Good thing for focus. But alarms are a must. My stress levels also seem down. Not sure if this is unrelated as I haven't been as stressed since I started this. So not sure if it is because of the pill that I am not stressed or not.

Week Three:

I looked back on my results at the end of this week and realized that this is the real deal! Well done. I am very happy right now. Haven't stopped smiling. I'm just always on. I'm always in control. Yesterday at work we had a major project deadline we weren't going to hit and I was the only one who was in control out of the entire team. Including my boss. I literally feel like I am mastering my emotions. I'm still experiencing a climb in focus and my memory is sharper than ever too. Around the third week of using any supplement, I would expect to run out of steam due to the body getting used to the ingredients. But my energy levels haven't dipped at all. They remain steady throughout the day. I no longer need that cat nap around 3 p.m. in the afternoon!

Week Four:

After the fourth week, my final results were amazing. My memory is crystal-clear, and my levels of focus and concentration have been through the roof! Even though my test is over, with the results I've experienced over the last month I am obviously going to continue taking **Geniux™** if possible. Side effects wise: none but you need to set an alarm to remind yourself of other work that needs to be done. You could get wrapped up in a passion project very easily. I love this stuff. I have no stress these days, I sleep less, wake up ready and energized and as for the brain games I have been playing... my scores have tripled which is awesome! love seeing the graph and how it shows my memory has sky rocketed. Hands down, the best decision I made was ordering a bottle. I plan

to use these for the rest of my life is possible. Otherwise I would feel like a God who lost his powers! Ok that's a bit dramatic but the point is, these are great. Well done once again.

"87% of students reported an increase with their grades. Other participants had mental success with zero anxiety or the feeling of being overwhelmed in pressure situations." – NCTU Research

★★★★★ **Hit the nail on the head!**, February 19, 2015

By [John G.](#) - [See all my reviews](#)

Verified Purchase ([What's this?](#))

This review is from: **GENIUX™ - Focus, Memory, and Concentration Formula: 30 capsules (Health and Beauty)**

God, where can I begin. I hope that this review helps. I know everyone is different and so some may not experience the benefits that I have. I have had both concentration and focus issues, particularly when I'm under stress. This supplement has helped me to achieve a relaxed type of concentration that I have been striving for, for a very long time. I was able to read the Tao Te Ching and Sun Tzu's Art of War with no problem, when previously I had trouble focusing through. I then went on to learn about electromagnetism, and learned like I never have before.

I am going to keep stocked. If someone has not experienced benefits from this, my suggestion is to keep researching and to find the solution that is right for you. For myself, this has hit the nail on the head!

★★★★★ **Ultra Tight Schedule - Actually works**, February 18, 2015

By [Paul Miscavage](#) - [See all my reviews](#)

Verified Purchase ([What's this?](#))

This review is from: **GENIUX™ - Focus, Memory, and Concentration Formula: 30 capsules (Health and Beauty)**

I needed something like this. I'm currently working 11 hour days as a sales manager and after I leave work, typically at 9:00, I'm again working from home an additional 2 hours on a screenplay which is due for completion at the very latest, May 1, 2015. My schedule is extraordinarily busy - and I forgot to mention - I'm also the full time dad of a 3 year old girl on top of all that! It really does work. Provides energy, but most of all, I'm able to "zone in" on my work. The first night I took them that damn known as writers block broke forth with a flood of new ideas and when I looked at the clock it was 3:00am. (I was still able to sleep good as well). Since then my story has shifted drastically - for the better - and I maxed out my bonus dollars for January and February.

★★★★★ **GENIUX Works!**, February 18, 2015

By **Richard Klekar "stuff browser"** (Austin, TX USA) - [See all my reviews](#)

REAL NAME

This review is from: **GENIUX™ - Focus, Memory, and Concentration Formula: 30 capsules (Health and Beauty)**

I recently came across a website that contained a link to an article about a supplement named GENIUX. As I am constantly looking for ways to improve my concentration, attention, and memory due to a long history of anxiety and attention deficit, I thought this might be something for me. Yes, I did take the time to read the bad consumer reviews and, afterward, still decided to place an order and give it a try.

I have been taking GENIUX daily over the past 2 weeks and have noticed a difference in my cognitive processing skills and memory, as well as my ability to attend to detail. While I don't consider GENIUX to be a "wonder" pill, I plan to continue to use it to supplement to my current regimen of things I currently do and take to keep my mind as sharp as possible.

★★★★★ **WORKS REALLY WELL!**, February 16, 2015

By **Richard Bunch** - [See all my reviews](#)

Verified Purchase (What's this?)

This review is from: **GENIUX™ - Focus, Memory, and Concentration Formula: 30 capsules (Health and Beauty)**

I have tried everything on the market and this product works VERY well. It doesn't cause jitters or nervousness, just hard core focus and alertness. I will definitely will use this from now on.

Elon Musk turns tech startup into billion dollar company after offering "smart drug" **Geniux** to all his employees. The results were astonishing, his employees improved efficiency by 300%!

BY RICHARD MASON

Updated 0202 GMT(0902HKT) Thursday, May 5, 2016

Recently Hawking made some comments in an interview with Anderson Cooper about a brain booster that would become the biggest event in human history

Stephen Hawking credits his ability to function and maintained focused on such a high level to a certain set of "smart drugs" that enhance cognitive brain function and neural connectivity, while strengthening the prefrontal cortex and boosting memory and recall.

In an interview with Anderson Cooper, Stephen Hawking said that his brain is sharper than ever, more clear and focused and he credits a large part to using **Geniux**. Hawking went on to add "The brain is like a muscle, you got to work it out and use supplements just like body builders use, but for your brain, and that's exactly what I've been doing to enhance my mental capabilities".

Everyone that has taken this, from athletes like Tom Brady to musicians like Kanye West have nothing but praise for the brain booster, which doubles IQ, skyrockets energy levels and connects areas of the brain not previously connected. **Geniux** works so well for these guys, we had to ask... Is it safe?

After 7 years Harvard Scientists Finally Break New Ground & Usher In **The Future Of Brain Science** With Invention Of New Smart Drug That Increases IQ, Memory And Focus Up To %100

Over a decade ago Harvard assembled a team of neuroscientists to work on coming up with a natural brain supplement that could **effortlessly boost IQ**.

Today, those scientists made the breakthrough they were seeking and made the **discovery of a lifetime**. They came up with a brain boosting smart drug that surpasses all limits of known science.

The Supplement they created is now **THE** best treatment available to improve memory, sharpen attention, increase focus and **boost overall IQ**.

After numerous rounds of testing results were astonishing. One test subject was quoted as saying:

"As soon as I took it started working within minutes of taking it. All of a sudden, it felt like a dark cloud had been lifted up from in front of me. I was more alert, more focused, had long lasting energy, and experienced a mental clarity that I'd never felt before" - Ben Lishger Harvard Sophomore."

The Lead Researcher on the team Dr. Rosenhouse gave us an exclusive inside look at the ingredients that make up this revolutionary smart drug:

"It is engineered with all the ingredients containing vitamins and essentials that your brain needs to ensure improvement in all aspects of cognitive growth, while including short and long term memory, focus, energy, problem solving capabilities and total brain performance."

We are all very grateful to have this now, as I believe it can help everyone on the planet and take us to the next stage of evolution. We're very proud."

His associate Dr. Cortigan went on to say:

"This revolutionary brain booster enables your brain to be the most efficient it can. It energizes the tissue and functions deep at a cellular level. It makes your brain cells perform their task genuinely and keeps away all kinds of mental fatigue or weakness. Its truly a remarkable breakthrough."

But what does this all mean for the rest of us? Could this pill help ordinary people like you and me?

The only way to find out is to try it a luckyly The Harvard team has patented and sold the rights to major manufacturers who currently have a **limited 3 month supply**.

For me, my major concern is my work. I feel taking this brain supplement could help improve my work and increase my income.

Sometimes, just **one simple decision** can drastically change the course of your life. Literally, one click could be the difference between living paycheck to paycheck and taking a bus to work to owning mansions, yachts, private jets and **never ever having to worry about money ever again**.

As Warren Buffett famously says *"the more you learn, the more you earn"*.

Are you ready to take the next step in **improving your life, feeling sharper and smarter than ever before and making millions or billions in the process?**

"I wouldn't have developed my patent formula if not for this amazingly incredible brain supplement." - says Dr. Rosenhouse

Are you ready to find out if this can work for you? We already ordered ours and will be writing a follow up piece on the results, we encourage you to do the same.

The only thing you have to do is try it and see for yourself. Who knows, maybe this could be the one little decision that changes your life. Write us and let us know. Best of luck!

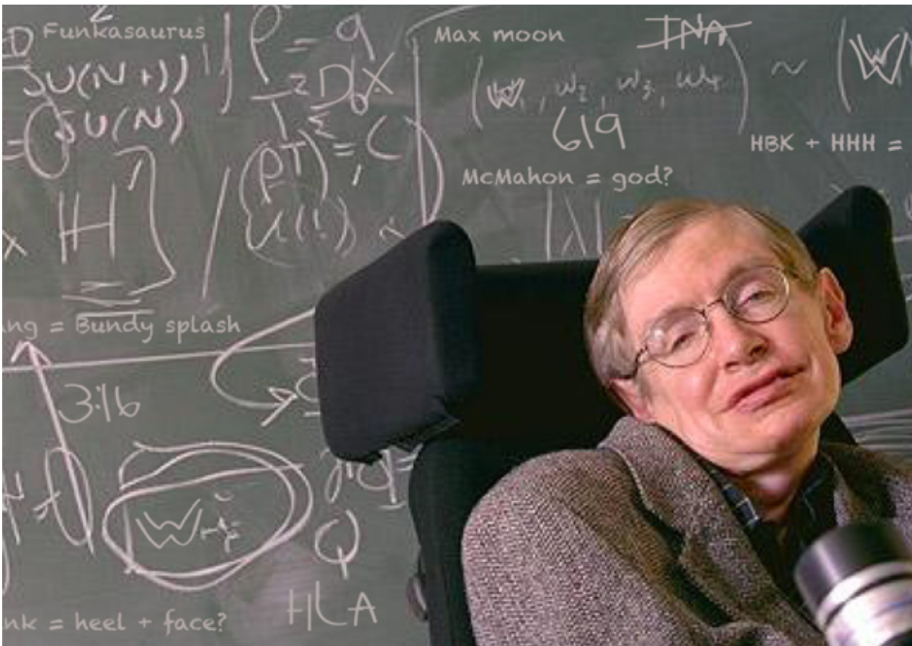

STORY UPDATE - Thursday, May 5, 2016

Experts call this new supplement the biggest advancement in brain science to date...

CNN broke the news first and uncovered that [Geniux](#) raises levels of focus and performance every day by 300%.

As we researched, we began to see that this supplement has been quickly gaining traction around the world. Celebrities and athletes alike are already rumored to be taking the pill with the full scale public release expected shortly. The company and product is called [Geniux](#). The site claimed that [Geniux](#) contained a very unique formulation of natural vitamins and minerals which together unlock untapped parts of the human brain. Our resident brain scientist Dr Raqif conducted his own independent analysis of the supplement and his findings seemed to mirror [Geniux's](#) claims. According to Dr Raqif, "he's never seen a food based supplement deliver such a profound upward lift in brain function before".

Genius Steven Hawking has Admitted To Using [Geniux](#) To Triple His Memory.

We tested it ourselves - did it live up to the hype?

After our research led to such positive reviews, we simply had to try [Geniux](#) ourselves to verify whether this was all hype. Almost every single man in the building volunteered to test it out but we chose our very own Anderson Cooper. Below is his account of using [Geniux](#) over a 4 week period.

14 Day Summary - Anderson Cooper's [Geniux](#) Results:

Anderson has been with us for years. "The [Geniux](#) pills were extremely hard to come by" says Cooper. He goes on to say, "If you can get your hands on these pills - get them right away." We had to wait 2 weeks before we got a bottle to test as it was sold out almost everywhere or over \$300 a bottle from people trying to sell it for profit eBay People were paying top dollar for them on there.

The free trial bottle of [Geniux](#) was delivered in a few days from ordering and with surprisingly inexpensive shipping. Before putting Cooper on the test, our team ran a little bit of our own research before we put Cooper on the test and found:

Anderson Cooper has admitted that taking Geniux he memorizes lines better.

Geniux has been clinically proven to:

- Sky-rocket Concentration by 32%
- Improve Creative Thinking
- Boost Energy
- Enhance Memory Recall
- Increase IQ Scores by 47%

Geniux arrived within 4 days of having placed my order Online for the free trials and were inexpensive to ship. To test out the product, I took one Geniux pill every morning for 4 weeks.

Anderson Cooper's 14 DAY Geniux EXPERIENCE

DAY 1

I took one and forgot all about it. Maybe 20-30 minutes later I felt odd. I can only describe it by saying my mind felt calm and still. I was playing a Men's mind game' and scored 100% on every answer. It was like that feeling you get when you have just woken up. Light headed so to speak but this was different. I was light headed and spaced out but in the zone at the same time. Can't explain it - but it was awesome.

DAY 5

I was shocked at the drastic results. Over the course of the next 5 days I found myself bouncing out of bed and felt ready to take on the day - usually I need to snooze 3 times. I felt motivation to get stuff done and often power through.

DAY 14

After 14 days, not only had all my doubts and skepticism absolutely vanished - Thing's that annoyed me were no longer an issue. I hardly got stressed and when I did, I was able to control my emotions and get back into peak performance and state.

My Thoughts On Geniux

Geniux is the real deal. The increase in focus, creativity and overall mental performance was a little bit scary to be honest - I felt like a different person. I didn't notice any side effects at all either. I need to order a box of these before they are released into stores. - Anderson Cooper

"The results were unbelievable. Every aspect of my mental performance accelerated from day 1. A must try" - Bill Gates's Last Interview With CNN

With the full market release of the supplement scheduled for later this year, Geniux is bound to make a splash. Experts say government intervention is likely to limit the release of the supplement due to its potent effects. That said, the company is offering limited bottles of the supplement for the next few weeks. See below a men's health special promotion for you to get a discounted bottle of Geniux today. Try it and please do write in to let us know what you think.

IMPORTANT: *Discounted bottles are quickly running out so we cannot guarantee you will get a bottle.

- Sean** • over an hour ago
 I ordered it 5 days ago and it arrived in my mail today! I will keep you updated it on it.
 ^ | v · Edit · Share
- Vlad** • over an hour ago
 Already ordered it and my wife and I are both going to try this out, thanks. The Higgins family
 ^ | v · Edit · Share
- James** • over an hour ago
 Thank you for doing a report on this. I've seen the advertisements everywhere and I didn't have the courage to try it until now. Thank you.
 ^ | v · Edit · Share
- Jerry** • a few hours ago
 I want to point out that there are brands of these products out there that doesn't contain the authentic components that have been researched and the ingredients are not high in quality. I think you should mention this in the article. But the good thing is that the brands you recommended are A+ companies with solid track history because I have been taking the expand brands you mentioned.
 ^ | v · Edit · Share
- Bob** • a few hours ago
 It looks like the free shipping and discounts are still active for now! Get em while you can.
 ^ | v · Edit · Share
- David** • a few hours ago
 This stuff is amazing! I couldn't believe it and had to do some research on my own which is how I found this news article. I can't believe they are offering free bottles! I know my friend tried this and was thrilled.. imagine how excited he would be if he found out he could get it at such a discount now. This is a godsend, thanks so much!!

SPECIAL REPORT: Is this the most powerful brain enhancer on the planet?

We exposed the truth behind a ground-breaking pill that has many experts furious. Studies have revealed it boosts brain power by up to 89.2%, sharpens your mind and sky-rockets your energy levels. With such overwhelming evidence and media mention, the question is not whether the pill works, but whether it should be legal.

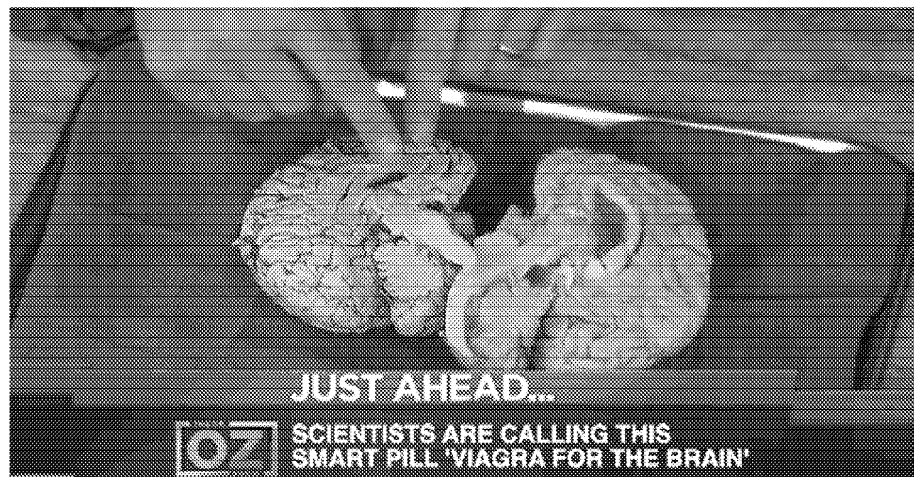

By James Rickman

CNNhealth.com

abc NEWS

Men'sHealth

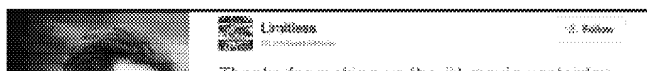

'Welcome To The Future' - These were the opening words when Dr Raqif appeared on The Dr Oz Show about a highly advanced brain supplement that is sending shock-waves through the medical industry. Major pharmaceutical companies are in chaos because they have zero control over what scientists are saying is 'Viagra for the brain'. It's called **Geniux™** (medical name: E-Huperzine) and the results are more than enough to give the latest superheroes a run for their money.

There's already been previous controversy around the memory-enhancing pill which was the inspiration for the movie Limitless. Heavily praised by Gary Stix as 'the missing link in human evolution' in his report 'Turbo-charging the Brain', when released, the use of **Geniux™** became widespread amongst young professionals. Specifically, men aged between 25-40 benefited the most as the effects were amplified due to the ingredients' reaction to a gene called NRXN3 in the male brain. Men reported having 'laser beam focus' and were **thinking sharper, improving their memory and turbo charging their energy levels**. Even more appealing and controversial was how the pills helped men effortlessly attract and seduce beautiful women with their new found quick wit and charm.

Geniux™ soon became known as the 'most powerful self-development trick on earth'. Not long after, everyone from quiz show contestants to university students were taking the pill to **double their IQ, triple their salary and achieve peak**

performance in little time. **Geniux™**, which has no recorded side effects in any trials, was soon the target of several major pharmaceutical companies who claimed it gave people an unfair advantage over anyone who was unaware of its existence. The pill was eventually banned on shows like Jeopardy! and at top universities such as Cambridge before production of the limitless pills were halted.

The use of Geniux pills became widespread after Limitless became a Box Office smash hit and publicly referenced Geniux as it's inspiration.

We tested it ourselves - is it all hype?

Geniux™, The Discover Magazine wanted to verify whether this was all hype. After almost every single man in the building volunteered to test it out but we chose our Senior Chief Editor Alan Frasier. Below is his account of using **Geniux™** over a 4 week period. With so much media praise and countless reviews of people experiencing success with **Geniux™**, The Discover Magazine wanted to verify whether this was all hype. After almost every single man in the building volunteered to test it out but we chose our Senior Chief Editor Alan Frasier. Below is his account of using **Geniux™** over a 4 week period.

Summary of Alan's Geniux pills experience

The Geniux pills were extremely hard to come by. We had to wait 2 weeks before we got a bottle to test as it was sold out almost everywhere or over \$300 a bottle from people trying to sell it for profit ebay. People were paying top dollar for them on there.

My first impressions were the packaging of the pills didn't match what I have been hearing. With the picture of the brain and Geniux written in red, the bottle looked a bit too party pill style. But I took one and forgot about it.

Maybe 20-30 minutes later I felt odd. I can only describe it by saying my mind felt calm and still. It was like that feeling you get when you have just woken up. Light headed so to speak but this was different. I was light headed and spaced out but in the zone at the same time. Can't explain it - but it was awesome.

Over the course of the 4 weeks I found myself bouncing out of bed and felt ready to take on the day - usually I need to snooze 3 times. I felt motivation to get stuff done and often power through.

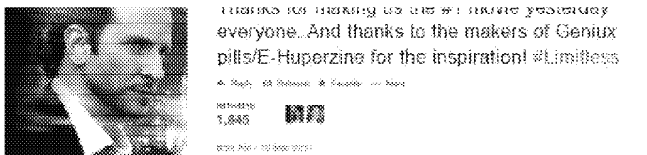

Things that annoyed me were no longer an issue. I hardly got stressed and when I did, I was able to control my emotions and get back into peak performance and state.

My thoughts on Geniux are that, despite the horrible look of the bottle (we have been joking about it a lot in the office) **the pills are the real deal**. I've tried modafinil and other smart drugs but this is by far the closest thing to feeling like you are Bradley Cooper from Limitless. Since then 50% of us have reoccurring subscriptions to make sure we never run out as I hear very few people can get a hold of these.

If you happen to come across these, you can move on with your day and go about your life or you can spare 2 minutes and take what is **the most important step to becoming the man you want to be**.

Because of recent coverage in the media, supplies are running very low. You can check to see if **Geniux™ is still available [here](#)**

Geniux was recently given honorary mention in Forbes' printed and online magazine editions as being the pill that can turn you into 'the quickest thinker on the planet'.

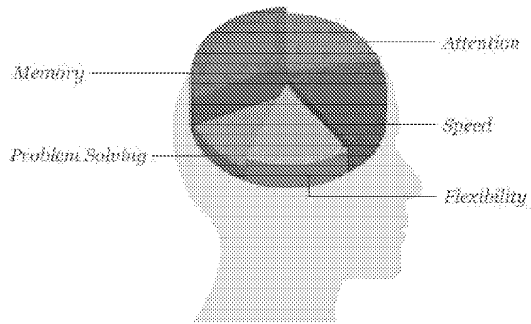

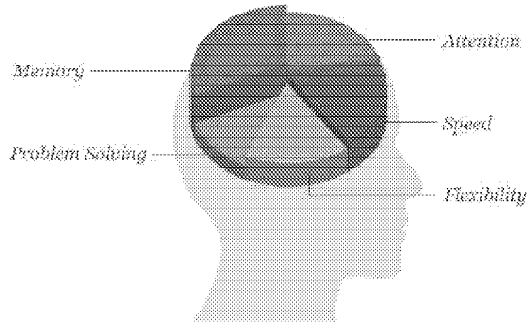

After several years and over 2000 trials at The Nottingham Clinical Trials Unit (NCTU), Geniux pills are back in production and recent reports are proving the superhero making drug is more powerful then ever. The secret to pill's improved formula? Bee pollen

Yes, you read that right! Bee pollen has been praised for its ability to rejuvenate and heal the mind for centuries. Combining this with the already powerful ingredients of **Geniux™**, and your mind will be clearer then that of a Zen-monk's. Your ability to focus and power through your to-do list will also be a thing of the past and after consistent use, you will **become the perfect version of yourself**. Many people thought something like this wouldn't exist for another hundred years but as Dr Raqif said: welcome to the future

Critics of the pill are of course making their voices heard and if the effectiveness of Geniux is stronger then it previously was then these will not be around much longer. With such a powerful opportunity to lower your stress levels, master your emotions and triple your salary, it's only a matter of time before **Geniux™** pills are once again the target of major pharmaceutical companies who are seeing a decline in their profit.

Stop
17 >

Geniux™ has been clinically proven to:

- Sky-rocket Concentration by 312%
- Improve Creative Thinking
- Boost Energy
- Enhance Memory Recall

 Increase IQ Scores by 77%

Should Geniux be legal?

When Geniux was originally banned a lot of people were angry. There were no side effects then and as it stands there are no side effects with the stronger formula. Even the pill from the movie Limitless had side effects and that was make-believe. That said, all our users followed the directions and did not go overboard so it's strongly recommended to use common sense when taking these.

Geniux is the only pill of it's kind where the user benefits and grows the more he takes. Normally the body gets used to most medications but throughout all trials all users made continued progress as the weeks went on.

In regards to whether these should be legal? Yes they should. In fact, they never should have been banned. The truth is the 'health and safety' of the product was never a concern. Major competing companies created uproar due to their heavily sinking profits when Geniux was becoming widely used. Even more companies are joining in this time so we have no doubt that production of Geniux pills will be stopped once again.

The question is, will you be one of the lucky few who have their hands on the next step of human evolution?

James Rickman, *The Discovery Magazine*

James Rickman is a resident scholar at the American Enterprise Institute in Washington, D.C and lead contributor to *The Discovery Magazine*.

The Nottingham Clinical Trials Unit: Research Findings

1. Take one Geniux™ pill per day (in the morning)
2. Monitor results each week

Participant #214 Case Study 4 Week Period

Week One

The first day of taking Geniux was an experience in itself. I started to feel a sense of calm after about 15 minutes. 30 Minutes later I had what felt like 360 degrees vision. My mind was clear and calm. Nothing like coffee.

After one week of using Geniux my energy levels are up, and it's not like a typical coffee rush. This is a smooth boost of long-lasting, natural energy without the crash... I love it! My brain honestly felt CLEAR for the first time in years, and this was just after a few short days.

I woke up today (day 7) feeling like a new and improved me. I had one of the most productive weeks I could remember and felt like I owed it all to this tiny pill. But I was still a little skeptical. To be honest, I'm still a little skeptical. If this week wasn't a fluke things are definitely looking up for me. But I am reserving judgement.

Week Two

After two weeks of using Geniux, I'm feeling even more focused and energized than before. Today I had what I would have called a "long day" and it hasn't even bothered me! I'm more focused right now (after a 10hr work day) than I would normally be waking up.

I'm bouncing out of bed. I wake up earlier without an alarm. It's great. I always woke up lethargic and like a zombie. Thinking about it now, that hasn't happened once. I literally wake up and I'm ready to take on the day. It's a truly unique experience.

My focus and concentration is pretty damn good. But I found I need to set alarms otherwise it is very easy to get carried away. Yesterday I went meant to meet some friends but was so absorbed in work. Good thing for focus. But alarms are a must.

My stress levels also seem down. Not sure if this is unrelated as I haven't been as stressed since I started this. So not sure if it is because of the pill that I am not stressed or not.

Week Three

I looked back on my results at the end of this week and realised that this is the real deal! Well done. I am very happy right now. Haven't stopped smiling. I'm just always on. I'm always in control. Yesterday at work we had a major project deadline we weren't going to hit and I was the only one who was in control out of the entire team, including my boss. I literally feel like I am mastering my emotions. I'm still experiencing a climb in focus and my memory is sharper than ever too.

Around the third week of using any supplement, I would expect to run out of steam due to the body getting used to the ingredients. But my energy levels haven't dipped at all. They remain steady throughout the day. I no longer need that cat nap around 3 p.m. in the afternoon!

Week Four

After the fourth week, my final results were amazing. My memory is crystal-clear, and my levels of focus and concentration have been through the roof! Even though my test is over, with the results I've experienced over the last month I am obviously going to continue taking Geniux if possible.

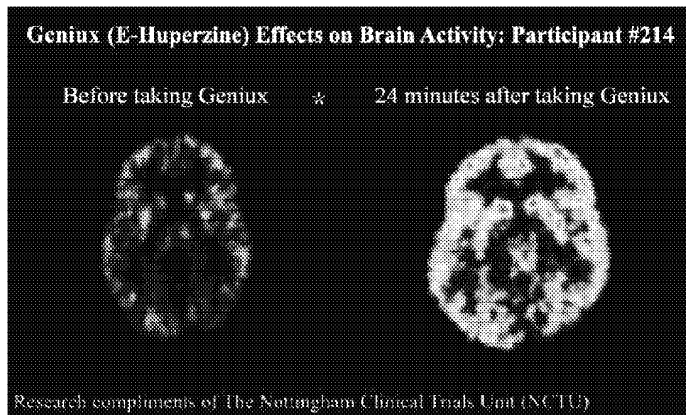

Side effects wise: none but you need to set an alarm to remind yourself of other work that needs to be done. You could get wrapped up in a passion project very easily.

I love this stuff. I have no stress these days. I sleep less, wake up ready and energised and as for the brain games I have been playing, my scores have tripled which is awesome! Love seeing the graph and how it shows my IQ has sky rocketed.

Hands down, the best decision I made was signing up for these trials. I plan to use these for the rest of my life if possible.

Otherwise I would feel like a God who lost his powers!

Ok that's a bit dramatic but the point is, these are great. Well done once again.

"87% of students reported an increase with their grades. Other participants had mental success with zero anxiety or the feeling of being overwhelmed in pressure situations." - NCTU Research

This basically gives men super powers over women? should this really be legal?!

Posted by Kathy

My friends all have these and say its amazing for their focus. I tried one just now but can't feel anything? It doesn't work on girls at all?

Posted by Michael

I saw this on a lot on the news about that student who took it and got blamed for cheating cause eit gave him a edge over everyone else? terrible. I tried one from my mate and ?!! admit, it's the best thing i've had for focus and clarity but i never felt out of control or like i was a different person or anything? the media just want to create panic for nothing!

Posted by Corey

I saw this on the news about that cambridge student who tried it. lol. def not cheating in my books. I take this everyday for work. No coffee or anything is needed cause I have this. totally clear mind all day love it. don't take too many though

Posted by Rich

My wifed and I both needed a pick-me-up & I really want to increase my productivity at work because i need my much deserved promotion! Already ordered it and we are both going to try this out. thanks. The Higgins family

Posted by Mike

Hey, I saw the report on TV and realized that Genius WORKS EVEN BETTER if you have a busy lifestyle and are constantly on the go - that's the story of my life!!! i am definitely going to try the special offer before it expires! Thanks for sharing the tips. Super excited!

Posted by Larry

There is a big stir going on these days about Geniux and my guess is it's not going to stop. i am seeing Geniux all over.. they were giving out free samples at the mall today and the stand sure did have a crowd. Thanks to the special offer you posted I saved over \$112. Thanks for the links Doc!

Posted by Dan

My brother has had trouble focusing since he was a baby and the doctor told my parents that they really need to get him on a regimen so he can get his grades up. I really hope this is the answer. Thank you guys.

Posted by Jordan

How well does this stuff work for guys? i wouldn't mind being a little smarter!My mate has these and says they rock but i want know what others think? Let me know please

Posted by Michael

Hey, Jordan, I have these. use em everyday. love it. good for focus and clarity i bought 3 at once to make sure i don't run out. i think you get a deal for buying 3 at the same time too

Posted by Jordan

Thanks! decent price for them. I bought 3!

Posted by Rich

I've been taking Geniux for 3 months and feel awesome. The problem is you need to set your alarm to remind you to take breaks. The focus and drive you get on this is superhuman.

Posted by Stephen

I've been seeing Geniux all over also i even heard my best friend talking about this brain supplement a few days ago since one of his friends started using it and was comparing it to that movie limitless! I definitely have to try this. thanks guys!

Posted by David

Stoked! Finally a pill that i'm optimistic about. Ordered. Will report back! thanks.

Posted by Brian

This stuff is amazing! My best friend James was swearing this stuff was the best thing since sliced bread. i couldn't believe it and had to do some research on my own which is how I found this news article. I can't believe they are offering it this cheap! I know James spent something like \$600 and was thrilled.. This is a unreal, thanks so much guys!!

Posted by David

So many people on here are taking more than one. Stop abusing your power! I never take more then one a day. You don't need to anyway. One gives you sustained focus.

Posted by Brandon

A friend of mine tried Geniux and recommended it to me 3 weeks ago. I ordered the product and received it within 3 days (although I didn't get the discounted deal). The results have been incredible and I can't wait to see what weeks 3 and 4 bring

Posted by Nick

It looks like the special discount is still working! Get em while you can

Posted by Sam

stand by this pill. I tried Geniux about a month ago and i can't say enough about it. This helped me gain an edge in life i felt like i had lost forever. It completely brought back joy in my life. (I have been waiting for something like this for a long time). I highly recommend this to ANYONE that's looking for a product that actually WORKS.

Posted by Jimmy

This kicked in after 15 mins not 5? It was insanely good I heard other people feel it after a few minutes though?

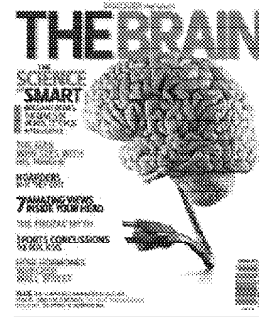

Posted by Alex

Loved the Dr OZ episode! I took two of these at one and felt like i was going at hyper speed. pretty good. I felt great and got shit done but my question is - how many can I take at once? one felt. awesome two was unbelievable. can I take three??

READER'S REVIEWS

"I can't believe this. My friends took this years ago and said it was the greatest thing ever. They always talked about it and how they couldn't find it anywhere. Love it. Thank you. I've had trouble with losing concentration since middle school, so you can imagine how desperate I was to finally feel as great as my friends seemed to every day. I finally tried Genius, and let me tell you, I will NEVER try another thing again! This stuff is incredible! For the first time I feel like I'm capable of anything! Thank you so much!"

- John A. Panchang, CA

"As a father of 3, I juggle work, kids, and all of life's other stresses on a daily basis. I've had a busy lifestyle ever since I started having a family due to having no time, but no matter how hard I tried there was just never enough time to get things done. A friend of mine brought me Genius one morning - I couldn't believe how quick it started working & how I felt like an unstoppable freight train! Thanks Genius - You're a real life saver!"

- Kyle A. Houston, TX
