The National Do Not Call Registry

The National Do Not Call Registry provides an easy and efficient way for consumers to tell companies they don't want to receive most telemarketing sales calls. Robocalls that are sales calls are illegal whether a number is on the Registry or not, unless the caller has written permission from a consumer.

Since its inception in 2003, the Registry has continued to grow. As of September 30, 2017, there were 229 million active registrations. Consumers can register multiple phone numbers on the Registry by registering online at donotcall.gov or calling a toll-free number (888-382-1222) from the telephone numbers they wish to register. Telemarketers and sellers must remove numbers added to the Registry from their call lists at least every 31 days. Organizations can access the Registry at telemarketing.donotcall.gov.

If a company violates the Do Not Call rules, consumers can report the call to the Federal Trade Commission (FTC) online at donotcall.gov or by calling the toll-free number. Law enforcement officials review these complaints, as well as consumer registration and telemarketer access information, through the Consumer Sentinel Network, a secure online database maintained by the FTC. For more information about Sentinel, visit ftc.gov/sentinel. Law enforcement personnel may join Sentinel at register.consumersentinel.gov.

The Data Book

The *National Do Not Call Registry Data Book* contains statistical data about phone numbers on the Registry, telemarketers and sellers accessing phone numbers on the Registry, and complaints consumers submit to the FTC about telemarketers allegedly violating the Do Not Call rules. Statistical data on Do Not Call (DNC) complaints is based on unverified complaints reported by consumers, not on a consumer survey.

New in FY 2017

- When reporting the total number of DNC complaints, the Data Book now breaks the number down to show how many complaints were about robocalls and how many were from live callers. With a few exceptions, telemarketing robocalls are illegal, whether or not a number is on the Do Not Call Registry. As always, when it's a live caller, we verify that the consumer's telephone number was on the Do Not Call Registry before we take the complaint.
- The online complaint form now asks for the topic of the call, so this new information is included in the Data Book.
 - Consumers can choose to report specific topics, such as reducing debt, vacation & timeshares, and several other categories. Not everyone who files a complaint reports a topic.
 - The Data Book does not include statistics where a consumer chose "Other," or topics less likely to violate the Do Not Call Rules, such as debt collection, political, or charitable calls.
- The Data Book now includes a state-by-state analysis of DNC complaints, and it has a new, more accurate way of reporting a consumer's state:
 - If consumers report their state, the Data Book always uses the state they report.
 - If consumers do not report their state, the Data Book uses their area code.
 - The state-by-state analysis also includes the top 10 topics of consumer complaints.
- The underlying data in the report is available on our open government site at: <http://www.ftc.gov/donotcall-databook2017>.

Inside the numbers

- States are ranked based on the number of registrations or complaints per 100,000 population. Complaint figures include the total number of FY 2017 complaints submitted to the FTC. Population estimates are based on 2016 U.S. Census population estimates (Table NST-EST2016-01 – Annual Estimates of the Population for the United States, Regions, States, and Puerto Rico: April 1, 2010 to July 1, 2016).
- For the purposes of this report, "active registrations" are those registrations consumers have placed on the Registry that have not been subsequently deleted by the consumer or removed by the FTC. The FTC removes numbers that have been disconnected and reassigned.

FY 2017 National Do Not Call Registry Who is using the Do Not Call Registry

Active Registrations by Fiscal Year

"Active Registrations" reflect the total number of phone numbers registered on the National Do Not Call Registry for each fiscal year as of September 30, 2017.

Organizations Accessing the Registry by Fiscal Year

	2013	2014	2015	2016	2017
5 or Fewer Area Codes	24,182	23,049	20,075	17,634	15,536
Organizations Who Paid	2,877	2,582	2,502	2,353	2,259
Exempt Organizations	598	585	521	503	543
Total	27,657	26,216	23,098	20,490	18,338

Telemarketers and sellers can access up to five area codes on the Registry for free. To access more than five area codes, they must pay a fee. Organizations that are not selling goods or services are "exempt" and can access numbers on the Registry for free. This includes organizations asking for charitable contributions, raising money for political purposes, or conducting surveys. It also includes organizations calling **only** people they have an established business relationship with or who have given the organization written permission to call.

FY 2017 National Do Not Call Registry Complaint Figures by Year

Complaints by Call Type and Fiscal Year

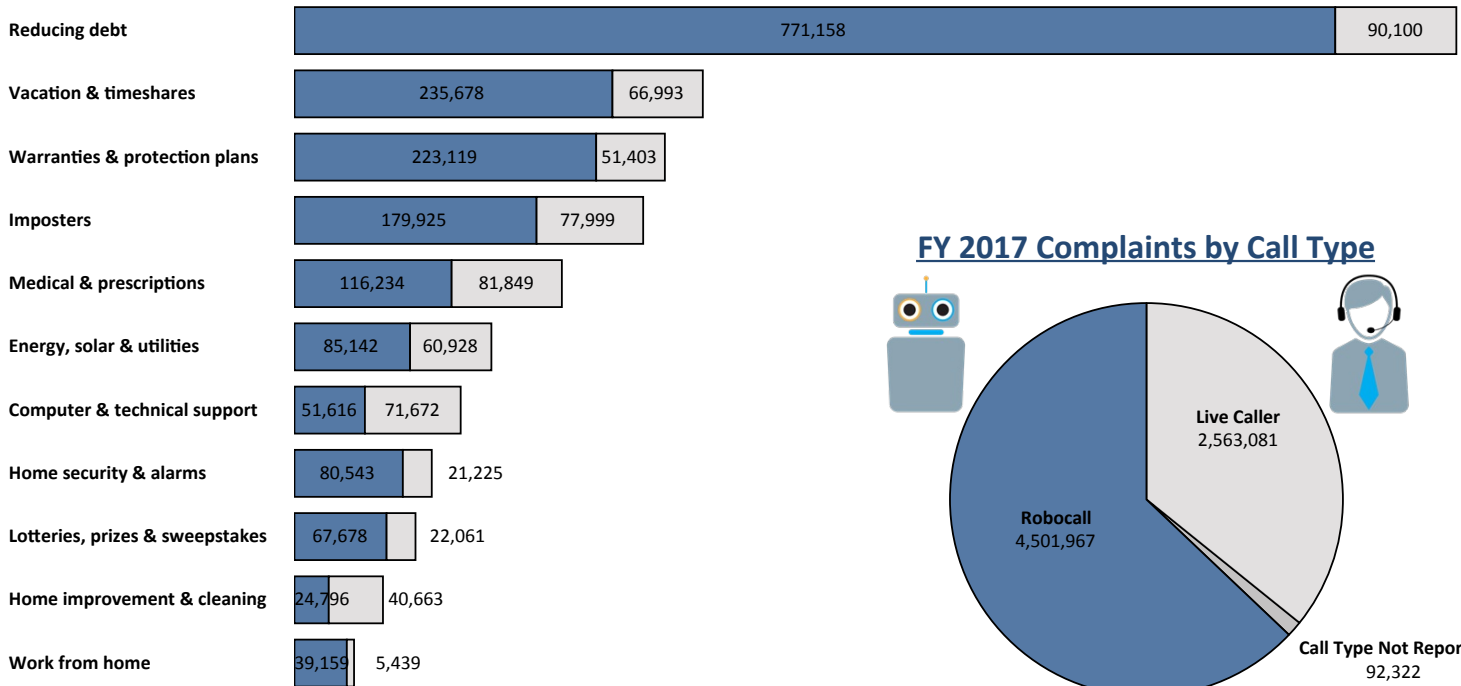

The total includes complaints about robocalls, complaints about live callers, and complaints where the call type was not reported. The number of calls where a call type was not reported is relatively small every year. The data is available at www.ftc.gov/donotcall-databook2017.

FY 2017 National Do Not Call Registry Complaint Figures for the Year

FY 2017 Complaints by Topic*

FY 2017 Complaints by Call Type

*Not everyone who files a complaint reports a topic.

FY 2017 Complaints by Month

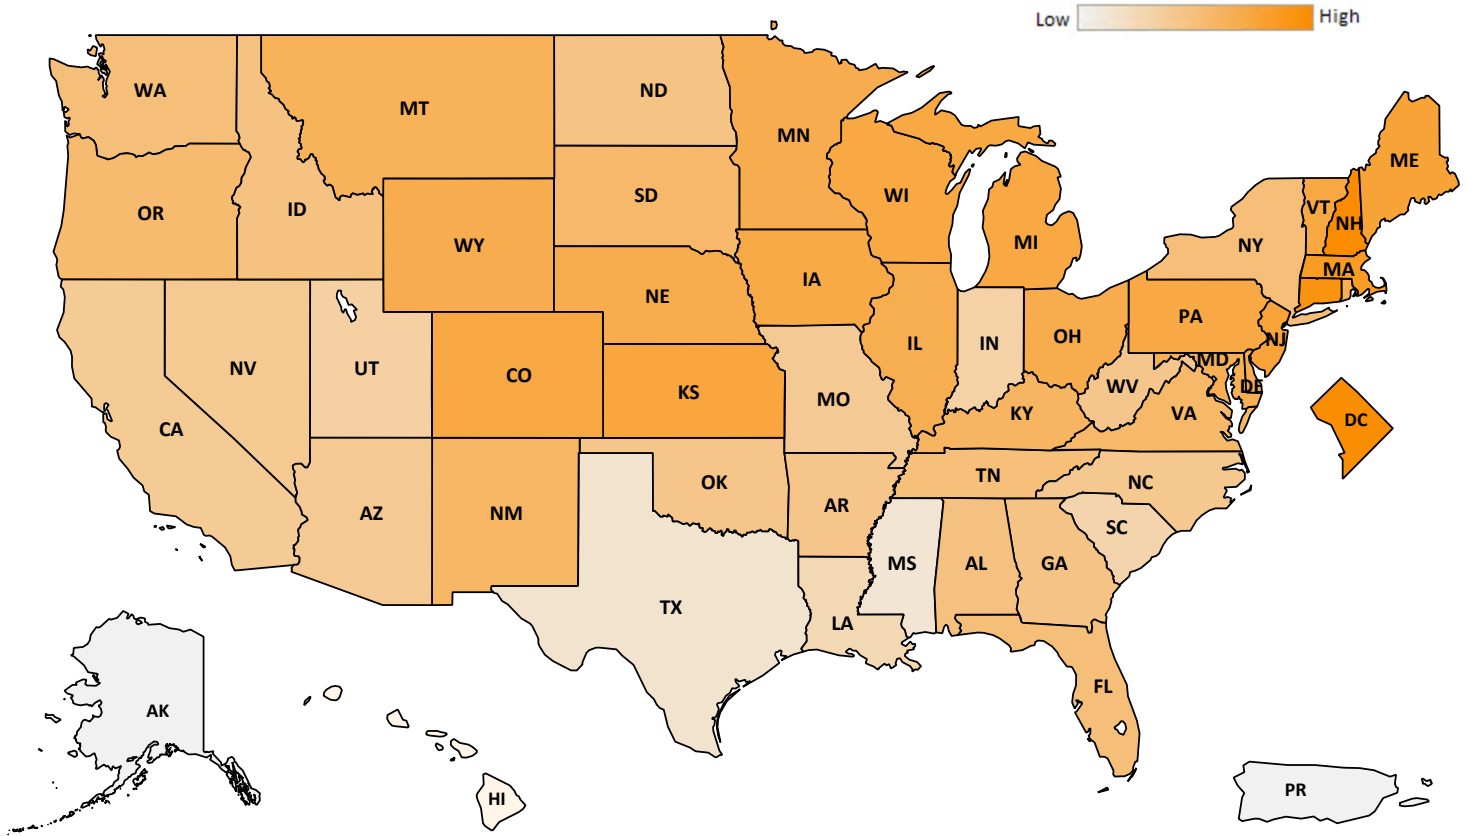

The total includes complaints about robocalls, complaints about live callers, and complaints where the call type was not reported. The number of calls where a call type was not reported is relatively small every month. The full data, as well as complaints reporting that the consumer asked the entity to stop calling, is available at www.ftc.gov/donotcall-databook2017. The FTC identified a technical problem with complaint submissions that resulted in artificially high complaint counts in July and August. The FTC addressed the issue, and September's figures reflect the adjustment.

FY 2017 National Do Not Call Registry Registrations by State
