Regarding the Strategic Plan for Fiscal Years 2022-2026
Commission File No. P261201**

August 26, 2022

Today the Commission issued its Strategic Plan for fiscal years 2022-2026, an effort that started under Commissioner Slaughter's leadership as Acting Chairwoman and continued under Chair Khan. The Strategic Plan establishes priorities to guide the Federal Trade Commission's work over the next five years so that the Commission can fulfill its mission and deliver on its mandate effectively. The Strategic Plan is informed by a comprehensive review of the agency's goals, strategies, metrics, successes, and challenges. It reflects input from stakeholders inside and outside the agency, and we are thankful to everyone—including public commenters—who participated in the process leading up to the issuance of the Plan. We are especially grateful to the Office of the Executive Director for stewarding this process, and to the staff Working Group for their guidance and suggestions, which drove the updates and additions reflected in the document.

During the agency's review of present challenges, it became clear that the Commission's goals, objectives, and metrics needed to be re-evaluated and refined to ensure that the Commission is continuing to learn from past experiences and adapt to present realities so that we can successfully navigate the road ahead. Accordingly, the Strategic Plan places emphasis on the particular importance of crafting strategies and policies to deter law violations in addition to taking action against and remedying them. We also clearly affirmed our commitment to ensuring the FTC's work benefits all Americans, including those in historically underserved communities ranging from racial minorities to veterans.¹

Over the last year we have already started to execute on key priorities to more fully protect Americans from unlawful business practices. This includes enforcement that activated important legal authorities, such as the agency's first action protecting veterans under the Military Lending Act, our first action under the Opioid Addiction Recovery Fraud Prevention Act, and our first action in years protecting franchisees under the Franchise Rule.² It also

¹ Historically underserved communities include Black Americans, Latinos, Indigenous/Native American peoples, Asian American/Pacific Islanders or other persons of color, members of religious minorities, lesbian, gay, bisexual, transgender, and/or queer persons, persons with disabilities, persons who live in rural areas, and persons adversely affected by persistent poverty or inequality. Strategic Plan at 14.
