

Part# SG2

QUICKER & STRONGER.
Sets in seconds.

An improved cyanoacrylate adhesive that effectively bonds most surfaces, including: metal, vinyl, aluminum, rubber, most plastics, wood, cardboard, cork, paper, leather and much more.

INSTRUCTIONS:

1. Unscrew nozzle with cap on it.
2. Point tube away from face.
3. Pierce metal tube with point on outer cap.
DO NOT SQUEEZE TUBE WHILE PUNCTURING.
After puncture is made, replace nozzle on tube.
4. Use sparingly (only 1 drop per square inch) on 1 surface only. Press parts together for 15 seconds.
5. Clean tip and replace cap.

Do not use for reattaching rear view mirror to windshield. Use Master's Rear View mirror adhesive. Not recommended for bonding glass or for polyethylene or polypropylene.

DANGER: Contains Cyanoacrylate. Bonds skin and eyes in seconds. Skin contact through clothing may cause burns. May cause allergic skin reaction. Vapors irritating to eyes, nose and throat.

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONS FOR USE: Avoid contact with skin and eyes. In case of eye contact, flush with water for 15 minutes; call a physician. For skin contact, wash with water. For ingestion, do not induce vomiting; call a physician. If spilled on clothing, immediately flush with large quantities of water. Do not remove bonded clothing; contact a physician.

FOR INDUSTRIAL USE ONLY

FIRST AID

EYES: Flush with water, seek medical attention.

SKIN: Soak in warm soapy water.

INGESTION: Ingestion not likely due to polymerization.

INHALATION: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

SPILL RESPONSE

Ventilate area of spill. Flood area with water to polymerize. Absorb with sand / earth and dispose in accordance with local, state, and federal regulations.

STORAGE AND HANDLING

Material should be stored at or below 22C. Avoid skin contact and inhalation of vapor.

16 OZ

ULTRAFIX CA - MV

1 Part Cyanoacrylate Spray- Activated Frame Adhesive

DIRECTIONS FOR USE: To obtain optimal adhesion, degrease the frame. Stretch the fabric over the frame providing good contact between the two. Squeeze a thin bead of adhesive onto fabric around the frame perimeter and spread evenly. Lightly spray the applied adhesive with Ultrafix CA Activator A (aerosol) or Ultrafix CA Activator P (pump style), which sets in less than 30 seconds. Release tension and remove the screen from the stretching system.

FIRE RESPONSE

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Wear self contained breathing apparatus for fire fighting if necessary.
